'I will stay with peace work' says Kent

Mgr Bruce Kent yesterday reacted to the Roman Catholic reacted to the Roman Catholic church's warning over his position with the Campaign for Nuclear Disarmament by pledging to carry ov peace work for the rest of my life".

Last week, Cardinal Basil Hume, the Archbishop of Westminster, warned him he

may have to step down as general secretary of CND

Mgr Kent said that it was right for priest to be involved in such issues as quelear disarmament. "I think the church is absolutely in the world, it should be in the world, and we are talking about peace and justice and reconciliation and not killing each other.

"If the church is busy sitting in its sacristies, counting its rosary beads and ignoring the great problems of the world, then I do not think it is the right church for me", he told Independent Radio News.

The church was concerned with the "problems of our neighbour and one of the problems of our neighbour is being blown up by this ridiculous arms race". Although Cardinal Hume

recently renewed his consent for Mgr Kent to continue as general secretary of CND, he admitted to "serious misgiv-ings" and said that the task might be better andertaken by

Asked about the chances of giving up CND. Mgr Kent replied: "I am very committed to peace work and I am going to stay with peace work for the rest of my life."

But Mgr George Leonard, Cardinat Hume's personal aide, said that the archbishop's permission to continue was not absolute and unconditional". There were levels of CND Kent's role "highly inappropri-ate, highly ambiguous and highly compromising", he said on the independent television programme, Credo.

Cardinal Gordon Gray, the leader of the Roman Catholic Church in Scotland, said that he would favour a national

Israelis challenge US over **Syrians**

From Christopher Walker Jerusalem

With the first Middle East shuttle of Mr George Shultz, the US Secretary of State, still far from its goal of removing all foreign forces from Lebanon. Israel last night pressed the Americans to supply concrete evidence of Syria's intention 10 withdraw its 30,000 troops as part of any final deal.

The Israeli move followed the return to Jerusalem of Mr Shultz, who immediately began a fresh round of talks with Mr Yitzhak Shamir, the Foreign Minister, and Mr Moshe Arens, the new Defence Minister.

Before Mr Shultz left the meeting to go on to a private session with Mr Menachem Begin, the Israeli Prime Minister, he was asked pointedly by Mr Shamir to clarify Syria's stand in view of the hardening of public comments from Damuscus over the past fort-

The intentions of the Syrian regime remain the most pres-sing question over shadowing Mr Shultz's delicate mission and the random factor which many Western diplomats fear is most likely to sabotage any Israeli-Lebanese agreement; should one ever be reached.

The recent Soviet military build-up in Syria has provided Israel with what some members of the American party see as a convenient diversionary tactic to avoid pressure to soften some of its most uncompromising security demands for southern Lebanon.

Last night's Israeli demand followed reports that Mr Shultz had postponed a previous plan to visit Damascus early this week as a central part of his mission. American officials told Israel radio that he would only go there when there had been more progress in the negotiations and something "worth-while" to talk about to the Syrian Government.

Rocket attack as Shultz sleeps

BEIRUT: Mr Shultz ap-peared unperturbed yesterday by the fact that two rockets exploded dangerously close to the American ambassador's residence in the suburb of Yarze, where he was spending the night, Our Correspondent

It was not clear if the projectiles were actually aimed at the residence of Mr Robert Dillon, the American Ambassador to Lebanon, since there was heavy fighting in the hills directly east of Yarze between right-wing Christian and Leftist Druze Militiamen.

12 missiles fired in sub hunt

Stavanger (AP) - The Norwegian Navy vesterday fired 12 more anti-submarine Tern missiles and dropped one more depth charge in an intensified five-day hunt for a possible foreign submarine off the coast.

The Navy was also checking and analyzing an oil slick discovered in the same area where the 12 missiles were fired. Ten other Tern missiles were fired by a frigate in the same area on Saturday.

Mr Erik Senstad, the Defence Ministry's information officer, confirmed the new firings and said the surface fleet taking part in the hunt has been reinforced with a special diving vessel.

He said six missiles and the depth charge were fired at 4.30 pm and the next battery of six missiles an hour later.

Both rounds came in the southern part of Skaaneviksfjorden about a mile and half off the southern tip of the island of Halsnoey.

"The bomb and the 13 missiles blasts were ordered by a frigate captain after establishment of sonar and hydrophone echo sound contact with an underwater obejet believed to be a submarine," Mr Senstad said.

Earlier yesterday the navy had announced the discovery of an oil slick in Skaaneviksfjorden, Mr Senstad said.

"This oil slick may have originated from many sources. It may be quite regular spill oil from previous passing boats and now being carried to the shore by the tide. It may also come from other sources, including from a large oil tank the local people say was lost in the fjord during a tow recently.

Scargill has casting vote after NUM moderates lose executive majority

not enjoyed an overall majority
and the even split hands further
comes as NUM strategists are power to Mr Scargill, whose presidential casting vote will be

presidential casting vote will be used to back the militants on industrial and political issues.

The unexpected shift in power comes after the election of Mr Billy Stobbs, aged 48, a former power loader at Easing action.

Moderate coalfield leaders office in July, after the NUM is perfectly true that I have have lost their commanding policymaking conference has floated the idea that we should majority on the executive laid down the strategy for the consider selective strike action Politically, it will divide as

The return of a known militant from the traditionally-moderate Durham coalfield means that the right-wing coalition which has dominated the union leadership for decades now ties 12-12 with the hard left.

This is the first time since the national union was formed in 1944 that the moderates have not enjoyed an overall majority

follows:

Continue to work.

"All miners would continue to be paid, while the coal board and the Government suffered as a result of our action. We could keep a war of attrition of that sort going for a year or two years without question."

The Scargill plan would entail a strike at about 20 high-output pits such as those coming on stream this month in the new

rethinking their tactics after

of Mr Billy Stobbs, aged 48, a former power loader at Easington colliery, to the Durham seat normally held by a moderate.

Mr Stobbs, chairman of the coastal pit union branch, beat two full-time officials to succeed Mr Tom Callan, secretary of the Durham miners. He told The Times last night: "I will be voting with the left on many issues."

action.

Instead of an all-out strike, which requires a 55 per cent majority in a pithead poll under NUM rules, selective stoppages at the "big hitter" pits are being considered. Up to 20,000 of the union's 220,000 members could be called out and paid full take-home wages financed by a weekly levy of those still at work.

committee of the National coming year when Mr Ian if we have to take industrial Union of Mineworkers in MacGregor, chairman of British action. We should operate it in elections which leave Mr Arthur Steel, takes over as chairman of such a way that we call out the Scargill, the left-wing president, the National Coal Board.

stream this month in the new Selby coalfield. Attitudes at such collieries in recent ballots. however, have been strongly against industrial action.

This strategic rethinking and the new balance of power on the executive makes it less likely that a root-and-branch reform of area representation on the NUM executive will now be

End of the

Astor

'romance'

By Geraldine Norman Sale Room Correspondent

One of the most grandiose

follies of the Edwardian era, the

collection of arms, armour and

works of art formed by William
Waldof, 1st, Viscount Astor, is
to be dispersed for good at
Sotheby's on Thursday and
Friday. The total value is
estimated at £1.8m.
William Waldorf acquired
them to embellish Hever Castle,
in Kept which he hought in

in Kent, which he bought in 1903, enthused by its associations with Anne Boleyn who passed her childhood there before tragically carching the eye of King Henry VIII.

The collection is packed with pieces that have historic associations, real or imagined, for he was a true romantic.

The centrepiece of the sale is

the superbly wrought suit of Milanese armour made for King

Henry II of France around 1540-1545, and now valued at £500,000. The King was one of the most demanding and enthusiastic patron's of the

arounter's art, but he was clearly particularly proud of this elaborate Mannerist suit made for him by Giovanni Paoli Negroli, since a portrait of him

wearing the armour was painted

This is not the only suit of

armour for which the historical

associations are attested by a contemporary portrait. The

Flemish three quarter armour,

the plates etched and gilt with a pattern of laurel branches and interlacing snakes, was made for Henry Wriothesley, Earl of Southampton, best known as

Verdi opera cancelled by Covent Garden

By Christopher Warman

Financial difficulties have caused the Royal Opera House Covent Garden to cancel one of its new productions for the next

Verdi's La Forza del Destino was to have been produced by Rudolph Noelte of West Germ-

planning stage.

Covent Garden, which confirmed the decision yesterday, is to announce its programme for next season, which runs from autumn this year to the summer of 1984, on May 17.

The cancellation is the late sign that the three sources of Royal Opera House income -public subsidy, private sponsor-ship and box office receipts -

are proving inadequate. The present season has had only two new productions, including Puccini's Manon Lescant, which opens with a gala performance attended by Queen Elizabeth the Queen Mother tomorrow and stars two of the greatest operatic draws, Placido Domíngo and Kiri te

Kanawa Covent Garden's decision to when Sir Claus Moser, the Royal Opera House chairman, expenditure at a time of economic recession meant the prospect of fewer productions

or shorter seasons.

He said then that Covent Garden was examining the cancellation of new productions as an alternative to lowering its

international standards. For 1983-84 the Royal Opera House has received a grant from the Government of £10.25m, which covers not only the opera but also the Royal Ballet and the Sadler's Wells Ballet. It has also been given a grant of £200,000 towards the cost of a visit to Manchester in the

In spite of this sum, which represents a 7.3 per cent increase on the total for 1982-83, the Opera House is left with very little more money.

Mr Paul Findlay, assistant director, has pointed out that because of increased commitments the amount of money it has received is only £20,000 more than for the previous year. He says that Covent Garden still faces a likely shortfall of £700,000 by March, 1984.

The Royal Opera House and the Royal Shakespeare Company are now the subject of financial scrutiny by the Government. The investigation was set up by Mr Paul Channon, Minister for the Arts. in February to examine their financial affairs in the light of its increased public concern about the large public subsidy which

will continue with theatrical entertainment, although it is likely that some form of restaurant will need to be incorporated to increase commercial viability."

Leningrad will stage the 1986 workt championship. There will be no separate World Championship next year because of the Winter Olympics the 1985 tournament is scheduled for Prague.

Challenge over wildlife sites

By Hugh Clayton

An ominous constitutional question lies behind the public argument between farmers and naturalists about protecting wildlife in the countryside. It could strike at the heart of the jealously gnarded statutory right of the Nature Conservancy Council to decide whether a piece of land deserves to become an official site of special scientific interest.

That right came under attack last year when Conservative MPs protested to ministers about the council's decision to declare 2,500 acres of West Sedgemoor such a site. Ministers agreed with the council that the Wildlife and Countryside Act, 1981, gave it the sole right to decide whether a declaration was justified.

Such sites are the main way of protecting wildlife from the steady encroachment of industry, suburbs, blanket forestry site is declared, the council can almost no hope of appeal. negotiate an agreement for the owner to safeguard the scientific

Architecture

Red herring of medievalism

By Charles McKean Architecture Correspondent

The architect of the new building at 66 St James's Street, off Piccadilly, believes that his design "evokes a medieval feeling appropriate to its historic London setting". That is just one of several curiosities regarding this unusual structure.

The claim is curious for three reasons: first, why Tripes Architects should believe that a medieval feeling should be appropriate here; in a part of London which, barring the Tudor brick palace at the bottom of the hill, is the centre of clubland, and redolent of the late seventeenth and early eighteenth centuries.

The only medievalisms that occurred here were those perpetrated by the late nineteenth century. The second, even greater curiosity, is what makes the designer believe that his structure exudes anything medieval at all

The final curiosity, I suppose, is why the designer finds it necessary to make such a palpably unlikely comparison to defend a strongly modern design. The partner in charge, Mr Rodney Gordon, was once a partner of the RIBA president, Mr. Owen Mr Owen Luder, a man preferring to defend modern design in its own terms.

Is there, in fact, any medievalism in the building? The structure is bronzed metal infilled with glass, so it cannot be the materials. It is a fivestorey corner building, with a two-storey attic space: fairly standard West End size and proportions: so it cannot be

The only unusual feature so far is the use of those materials for this type of infill block in this rightly controlled location, but that is not medieval.

So, is it the plan? At last, a faint gesture to the past there are towers at each corner, billowing out from the main facade, but hardly sufficient to justify the term medieval.

Had the towers been capped by creneliations, parapets, a cap house and a flagpole, then the connexion might have been made. But, instead, their tops have been sliced off like

knife: simply to look at them makes the observer say "ouch". If one looks for a reasonably accurate metaphor for this building, it must be something to do with the space pro-gramme; particularly the way the top of the building, instead of ending firmly as a building should with a cornice or roof, tapers away into the sky. The materials and mechanistic proportions all tend toward the same image.

But such an image would not be acceptable to the public in this location. Its predecessor, Map House, was equally intrusive in its day. Brick and stone, turrets and mullioned windows, was the usual second rate Edwardian baronial building that everybody would press to preserve in terror of the alternative. With unusual courage for London, the council

permitted the alternative. How does it compare with Map House? Pretty well. It street. lacks, of course, the intricate detail and sense of proportion; character except at the top.

What clearly happened at the

top is interesting. There is a cornice and roof line. Most buildings are able to set back a Social origins.

The Egyptian Council accused Mr Heykal of degrading journalistic ethics and impugnation that they had to put Ismat on mansard above the cornice line; this building, without the differentiation a cornice provides, simply slopes back, whereas the inherent character ing the honour of Egypt, its people and armed forces. of the building should have indicated a projection at this point turret-wise Interior Minister, was quoted on Friday by Al Akhbar, a mass-

In other words, the planning authority could not quite come to terms with the dichotomy of having, on the one hand, the general height restraints for this district and, on the other, permitting a building of this distinctive nature. The compromise result, at skyline level, is

clearly its weakest point.
The "medieval" gesture is a red herring and a sign that the architects think that the public will not accept the truth. It is a modern building, and a suitable if vulgar replacement for what must have been, in its time, an appalling solecism in this august

It is a more than usually forceful representative of modern architecture in London, and carried through with some

Cancer fear | Friendly

hits sale

of cereals From Our Correspondent

Shoppers in South Africa are panicking over a report by the semi-official Medical Research Council that a popular breakfast cereal contained a substance that could cause cancer. A row is also brewing between cereal manufacturers and the Government over its refusal to identify

The council's report said the personality. The visit to Jerusa-lem in 1977 was an attempt to "overshadow things" after the food riots in January of that year. Then the insistence on

giving refuge to the dying Shah irritated Ayatollah Khomeini, and contributed to the war carcinogen aflatoxin, a cancer-producing substance often used "If Egypt had been accepting its responsibilities in the Arab world, that war would not have Mubarak attack: President

Manufacturers and shops have urged the Government to identify the brand. Kellogg's said no defatted peanut meal was used in its breakfast cereals. Mubarak, in a May Day speech, hit out at writers and journalists who, he said, were besmirching Egypt's honour for money. He used to identify the targets of his criticisms, but there is no doubt they were Mr Heykal and Mr Youssef Idriss, a novelist who recently cast doubt on the reasons for waging the 1973 war

product because it is now a safe food produced by an ethical company. No action has been taken against the company."

Kind words in Harare as envoy returns

From Stephen Taylor Harare

Mr Robert Zwinoira, Zim-babwe's former High Com-missioner to Britain, slipped quietly back into Harare yesterday after being relieved of his post, leaving behind the £585,000 Mayfair mansion which jeopardized his career. which jeopardized his career.

He was accompanied by Mr
Witness Mangwende, the Minister of Foreigo Affains, who had
been in Europe on official
business, and was not by Mr
Nathan Shamuyaria, the Minister, of Information, and his
funity. There was no official
ansouncement of his return and
has is understood to be under-

he is understood to be under

instructions not to speak to the

press.

A Government source said Mr Zwinoira, appointed Zimbabwe's first High Commissioner to Loadon in 1980, had completed his tour of duty and would probably be taking up a senior domestic post in the Ministry of Foreign Affairs.

The source denied that Mr Zwinoira had been dismissed because of accusations of financial misdemeanours in his purchase of a mansion at 11 Chesterfield Street, Mayfair, "The affair is over. It has been publicly debated and Mr Zwinoira has suffered enough. There is no intention of pulicly rebuking him."

The former High Com-missioner was severely criti-cized in a parliamentary report published in February which accused him of "a catalogue of misdemeanours abnost withour parallel in buying the house which deserved the strongest possible action by the Govern-

After putting a deposit of £58,500 on the house, he ignored orders from Harare to cancel the deal and arranged to pay the balance by obtaining an unauthorized overdraft. This committed the Government to buying the house and ran up an additional £108,600 in interest charges.

Days after the publication of the report, Mr Zwinoira was recalled for "diplomatic consul-tations", and was in Harate for a parliamentary debate in which he was castigated by MPs who said he should be dismissed and ordered to repsy a substantial-sum to the Government. However, Mr Mangwende told the House of Assembly that

Mr Zwinoira had merely been naive and was manipulated by unscrupious estate agents

Informed sources believe these are a number of contenders for his former post, the most often mentioned being Mr. Trivafi Kangai, director of the Zimbabwe Broadcasting Contenders of the Limbabwe Broadcastin poration and brother of Mr Kumbirai Kangai, Minister of

for Lesotho Pretoria (AFP) - Mr P. W. Botha, the South African Prime

Minister, conferred for four hours here on Saturday with Mr E. R. Sekhonyana, Lesotho's Foreign Minister, despite the state of war" declared against South Africa by Lesotho after clashes along their common frontier. Last December, the South African Army raided Maseru, Lesotho's capital, and killed 42 people. A communique said the two men had discussed the revival

of a huge water project which would supply South Africa's parched Transvaal province with water from mountainous Lesotho, which is an enclave in South Africa. They emphasized the "para-mount importance" of econ-

omic and geographical facts in the establishment of "realistic relations" between the two countries, the communique said. It was the first contact between the two sides since the December attack:

The scheme, known as the Lesotho Highlands Water Pro-ject, would involve building five dams and would make water Lesotho's main export, turning the kingdom into a reservoir for South Africa.

Lesotho would receive electricity, irrigation and other economic benefits from the 20year project, scheduled to start in 1985.

Blacklist of torturers proposed in Geneva

From Alan McGregor, Geneva

cated yesterday, by Mr Theo Van Boven, former director of the United Nations Human Rights Commission. He said in Geneva that, with

systematic torture during interrogation used in many countries, listing the names of those who ordered it and those who applied it was one of the few practicable urgent deterrent measures.

No name would go on the list, he said, without "solid information". In addition the persons concerned would be for their holiday island of invited beforehand to give their:

Plus 50% of capital as low interest loan and 3% interest rebate.

The most widely-known advantage of using coal is that it is considerably cheaper than either oil or gas.

It reduces your energy costs which in turn cut unit costs. giving your company greater efficiency and a keener competitive edge in the market-place.

There are other advantages, however less known, but just as significant.

THE 25 % GOVERNMENT GRANT SCHEME.

This scheme which has been extended until 31st December 1983 provides up to 25% of the total project capital cost of converting from oil and/or gas to coal-firing.

IS YOUR COMPANY ELIGIBLE? User of oil and/or gas as the main fuel? Part of the manufacturing or service industries? Cost of new coal-fired project exceeds £15,000?

All companies in the private manufacturing and most service industries are eligible. providing that oil and/or gas has been used to meet at least 75% of the process or heating requirement, and the scheme does not disqualify applicants from the benefit of other grants - Regional Development Grants for example.

The net cost of the new project must exceed £15,000.

If your company meets these requirements you could be well on the way to receiving the grant.

in line for further grants.

EVEN MORE HELP.

In line with the extension of the Government Grant Scheme, Exchange Risk Cover Scheme Loans will also be available until the end of the year.

These two Schemes combined can provide up to 75% of the capital cost of converting from oil or gas to coal firing - 25% as grant and 50% as a preferential loan.

The loan scheme is also supported by a 3% interest rebate subsidy.

The combination of these facilities And if you are in a development or special offers industry an unprecedented incentive to

and do not disqualify applicants from the benefit of other grants. Regional Development Grants for example. The total capital available to aid conversion is limited and therefore early application is advisable.

Clare Colvin interviews the director, and Dennis Hackett reviews the appearance of Eureka's star, Gene Hackman, on The South Bank Show

The madness and the ecstasy

In the summer of 1943 Sir Harry touched a chord. I found that the Oakes, one of the world's richest men, incident, and the position of the was found bludgeoned to death in his characters reflected some kind of truth bed. The murder shook not only the lotus eating residents of the Bahamas; became known that his close friend, the Duke of Windsor, then Governor of the Bahamas, was threatened with a similarly nasty death if he did not give way to the plans of a Matroso syndicate to build a casino on Nassau.

It was not Sir Harry's death that intrigued the film director Nicolas Roeg so much as the extraordinary way he had made his fortune, and its effect on his life thereafter. As a young man, Oakes was one of the many struggline prospectors who descended on the Yukon at the turn of the century in search of gold. A 14-year trek to goldfields from Alaska to Australia finally resulted in the realization of his dream when he discovered in northern Ontario the second largest gold mine in the Western Hemisphere. The downand-out prospector, bereft of friends and money, and almost instane from the appalling conditions he had been living. under, was suddenly a billionaire.

Roeg is adamant that Eureka, his new film opening in London on Thursday, is not a dramatized documentary of Sir Harry Oakes's life. His thoughts had been concerned with the theme of obsession with money when he read Marshall Houts's book on the Oakes murder case, King's X, and it provided the shell for what he wanted to say. The main character in the film, Jack McCann, played by Gene Hack-man, has a similar background. Jane Lapotaire plays his wife and Theresa Russell his daughter. The daughter's playboy husband, who was wrongly accused of the murder, is played by the

Dutch actor Rutger Haner. As with Bad Timing, something characters renected some kind of truth in my head", says Roeg. "I would hope that anyone who sees the film would feel something of Jack McCana's predicament. It is about a man who experiences the ecstasy of finding what he is searching for. But ecstasy is a dangerous emotion to reach. Where do you go after that? What can you reach for after ecstasy? A more ecstatic ecstasy? In a way his story is over, but his life is not. He has to live on to wonder what his life means.

Eureka is likely, as with Roeg's past work, to cause some dissension among work, to cause some dissension among critics. His producer, Jeremy Thomas, who worked with Roeg on his previous film, Bad Timing, says: "Nic. has the ability to make an andience feel it has been physically punched in the stomach the way he suddenly catches them off guard." The disturbing images do indeed have that effect, though one of the strongest, the setting fire to the dead man, is based on fact. The distributors have obviously felt rather weak-stomached in their decision to open it quietly at the Screen on the Hill and the Odeon Kensington rather than going for a general release. Presumably, if it becomes a cult film, they will consider the West End.

"I don't believe my films are inaccessible", says Roeg. If they were I would be inaccessible myself. What I am trying to do, as anyone who works in any form of art or communication is trying to do, is to express an emotion.

The film audience is so, curiously demanding in conservatism. You don't find that in any other form of expression, such as dance or theatre. People never say of dance, 'I don't understand what is happening. Yet film is the newest and should be the freest art of all."

As in his earlier Don't Look Now, the images often show what is going on in the mind of one of the characters rather than an actual event. The strike, where McCann realizes he has stumbled across one of the richest seams of gold, is expressed in terms of a veritable flood of gold which all but drowns him. It is a way, says Roeg, of conveying to the audience the mystical thrill for McCann - in reality all be would have seen was some quartz in a rock, but the mind of a miner would have immediately leapt to the riches it meant.

At 55, and with six films to his credit, Roeg still reusins a certain modesty, almost unsureness, about explaining his work. Dealing so much in the visual and emotional medium, he finds it hard to rationalize about them. Significantly, on a recent television programme, his colleagues and critics spent nearly an hour pontificating about the meaning of his illus; finally the director himself sat down to be interviewed, and simply delivered benign shrugs and self-effacing laughter when faced with discussing his work.

He has been on record as saying that

that he works very quietly and the scenes are minutely mapped out beforehand, every camera shot being recorded in the script. As a one-time cameraman himself, he feels able to leave the technical side during the day's shooting to his director of photography, Alex Thomson, and concentrate on the Alex I homson, and concentrate on the actors. He is usually able to get the actors he wants on his films, because they know it will be a remarkable experience working with him.

"I look on filming as a way of making contact and trying to under-

stand each other", says Roeg, "You cannot help but reveal yourself through your work. Now I'm trying to figure out what mark this film has left on me. A lot of people's lives were involved. We formed a microcosm of society and lived in that world for a while. Then gradually, day by day, people left and now I am the last one working on it they have all gone away from the village. John Houston once said: 'All in all, it is rather a melancholy affair making films'. I'm inclined to agree."

Nicolas Roeg (left), photographed by Suresh Karadia; and Gene Hackman, finding that

An actor's internal agony

The South Bank Show Gene Hackman was heaping it freely on the interviewer Alan Gibson in Jamaica during the making of his latest film, Eureka, directed Nicolas Rocg. Mr Hackman describes his

acting techniques as "internaliz-ing", and thinks of Marlon Brando not quite as his idol but as his guide. Internalizing for Eureka could not have been hard. He plays a gold prospector who strikes it rich and finds having everything a kind of devouring nothing.

In person a gentle, bewilder-ing man, he is several precincts away from Popeye Doyle, the tough cop he played in *The* throug

Success and, presumably, money in the bank have not made life sweeter. He has not found acting enough. "Is this what a grown man does at 50-odd, at 52?"

On the whole he was not crazy about anything he had done. He had had some fun in Bonnie and Clyde, for which he was nominated for best supporting actor, because of the ensemble feel among the cast. He wished he had the energy now - There is very little in films that is interesting after you have been doing it for 20

Whoever you were showed through in time and that

There are Oscars on the French Connection, his first seemed to worry him. He mantelpiece but there is angst in starring role. It won him an admitted to a lot of bad films and said he had stopped working after Superman, which he did not count among the bad, because he was accepting roles just on monetary value.

est uld ace nt, s of ive om

the need to be a performer. You could grow out of it, he said, but later confessed there was still "that small boy in me".

He sat in the sun, externalizing about his internalizing, looking unhappy, dismayed at the roles that had failed to liberate the real Gene Hackman. "I suppose at 70 years old you come to the realization that it doesn't matter so much, that it's just as good as any profession", he said, and made it sound like a question.

Opera

Pritchard takes the honours

Parsifal

Opernhaus, Cologne

Jean-Pierre Ponnelle's biggest over the past five years have mostly been with Wagner, the Ring in Stuttgart, Tristan und Isolde at Bayreuth, Das Liebesin Munich and now Parsiful at Cologne. If there is a common thread in these productions it is Ponnelle's attraction, as a theatrical craftsman, the world of dramatic leitmotif and symbol, rather than to the more troubled waters of the mythological, mystical or moral in Wagner's Anyone expecting the new

to be an intense spiritual experience is likely to be disappointed. What Ponnelle achieves is a vindication of Parsifal as a cogent musicodramatic entity, capable of expressing something profound about the complexity and contradictions of man. His constant reference-point is a glowing temple interior, less ornate than Wagner's original conception but just as finely sculpted, and, like every Ponnelle set, perfectly symmetrical. By using it as a solid framework for each scene, Ponnelle likens it to a temple of human nature, emphasizing that the character-istics displayed by the inhabitants of castle and magic garden in Act II are the direct complement to those of Montsalvat in Act I: the idealism and bland self-righteousness in man contrasted with the destructive tendencies of his sensuous, physical and vindictive self.

Student opera

Bloomsbury/RAM

Some of the best entertainment last week was to be found at the Bloomsbury Theatre, where the National Opera Studio pre-sented the fruits of its year's "finishing course": seven defly stage-managed scenes from seven different operas, pro-duced by Christopher Renshaw and designed by the Wimbledon School of Art. To plunge into the final scene

of La traviata, or into Mozart's "Porgi amor", and to do so in front of a largely professional

ess consistent Peter Lindroos as Parsifal:

strange casting

Ponnelle's depiction Amfortas as a demented, stumbling, unkempt ogre - like a drunken intruder - is not only intensely dramatic but reinforces the arrogance of Titurel's ascericism, which has robbed the knights of sexuality, indi-viduality, colour and even compassion. The same stage picture in Act II, refreshing though it appears with flowers. bright costumes and beautiful chorus movement, illustrates how obsession with the Grail has led Klingsor on an equally perverted path, with magic brews and astrological symbols.

The result not only imposes a much stronger unity on the work than is normal in performit also makes much clearer that Wagner was as critical of the world of the Grail as he was of its opposite, the world of Klingsor. So, in spite of Ponnelle's lip-service to some of the work's traditional vactions the work's traditional vestiges

The imagination and resoure timbre.

cefulness of the student stage

of religion, this Parsiful is more vivid parable of human behaviour and aspiration than an exploration of spiritual truffs.

How Peter Lindroos came to be cast as Parsifal is baffling, for he lacks the vocal fibre to convey the character's purity or give the cries of anguish an adequate strength. Gottfried Hornik was an equally curious thoice to deliver Klingsor's ranting decla-

Karl Ridderbusch's prickly patriarchal Gurnemanz is a sad portrait of vocal decline, and Thomas Stewart as Amfortas is another candidate for retirement. On a more positive note, the promising German bass Matthias Hölle does not go unnoticed as Titusel, and Waltraud Meier's exciting young Kundry bears one of the most striking voices I have heard in the past year.

The real musical honours though, are reserved for Sir John Pritchard, who has followed his Cologne Meistersing-er with a Parsifal of immense breadth, confidence, conviction and screnify, as warmly ap-plauded by the orchestra as by the audience. His reading showed a searching grasp of thematic material, a natural shaping of dramatic contrast and a control of momentum that gave the Act II finale and Good Friday music an overwhelming charge. This alone released the performance from its earthbound quality.

Andrew Clark

and prospecting audience, is an designs, particularly those by experience intimidating enough Julie Reed for Carmen and to test the most fron nerve, the Michael Spencer for Fidelio, were equally encouraging, and the players of the National Shirley Pilgrim as Violetta and Centre for Orchestral Studies Aline Sheehan as Figuro's under Steuart Bedford provided Countess judged well the pacing vivid and confident support. Concerts

Trouble in texture and form

Beaux Arts Trio Wigmore Hall

recital by the Beaux Arts Trio, of three goblets of iced tapwater being borne on a plastic tray backstage. An insignificant apparition, perhaps, but it surrounding mad-seemed to say something about It was all s the spartan, unlovely performance of Schumann's F major Trio we had just heard.

The piano trio is famously an awkward medium even at the best of times, and here the musicians needed special luck in a programme of interesting failures: this was the first of three concerts on consecutive days featuring the piano trios of Schumann and Brahms, prefaced on each occasion by Haydn. However, Schumann

with texture and form. Isidore Cohen's violin, in particular, was disinclined to sing. His tone happened to catch sight, plain; there was even some tonation. And so ideas should have flowered like poppies on a building site were coloured too much with the

It was all so surprising, especially after an alactritous, quick-witted finale to Haydu's A major Trio of 1794, to find the Beaux Arts slipping away from perfect togetherness as they did when violin and cello had to play as one in the first movement. Then the care they lavished on several passages of question-answer counterpoint threw attention on what is the most tiresome aspect of Schumann's chamber music. I liked the way the Intermezzo began found them minimizing the with a simultaneous smile and a glory of his trouvaille and hobble, but elsewhere the maximizing the trouble he has performance moved in such a

claims to formal elegance. Right at the end, for instance, where Schumann acknowledges his helplessness in a sudden wander Beaux Arts passed through at a gallop started many bars before. The performance of Brahms's major Trio was not much happier. The near little stabs of

the Beaux Arts style paid off in the delicate scherzo, but otherwise, particularly in the first movement, they gave an impression of finickiness quite alien to Brahms. When something more powerful was needed it had to be forced, and sometimes too much was forced too soon: by the end of the scherzo's trio Menahem Pressler was almost standing in order to crash down on his piano with sufficient weight to complete the unwise course on which he and his colleagues had em-

SPECTRUM

How did film director Michael Apted move Gorky Park to Scandinavia? He changed the street signs, hired the cars and imported English 'snow'

Moscow? Niet, but it's close

By Christopher Mosey

It should have been filmed in Moscow, of course. After all, rumour had it that Yuri Andropov has a copy of the 335page best-selling paperback in his bookcase, fuelling speculation as to the unlikely prospect of a former head of the KGB being a "closet liberal". But no, they began the making of Gorky Furk in Helsinki and have now moved on to Stockholm.

Kaisaniemi Park, an anonymous patch of grass and birch trees in central Helsinki, is in the title role; and Sturebadet, a Stockholm health centre founded in 1885, now owned by the pop group Abba, has been converted nto the Turkish bath just off Red Square where top party members relax and where honest Moscow cop Arkady Renko first meets his principal opponent, the suave and sinister Ameri-

Location shooting of what may be the definitive study of totalitarianism in 1984, the year when Orwellian prophecy is measured against the real thing, is now coming to an end, with a hyper-intense William Hurt "living" his role as Renko and a monosyllabic Lee Marvin playing Osborne, a villain as always – but this time, to use the words of the author, Martin Cruz Smith, "a man magically dripping

money from his every pore". Michael Apted, the film's director, born in Ilford, educated at Cambridge. trained at Granada TV in Manchester and since 1979 resident in Los Angeles, shuffled in sneakers, jeans and anorak to the unit's mobile canteen, collected a plate of something that looked anonymous and totalitarian, and said: Of course, we'd like to have done it in Moscow. We asked, you know. It was

Despite the reported presence of the book in Andropov's bookcase, or perhaps because of it, the answer was a predictable niet and Apted was forced to tread the same path as author Cruz Smith: a couple of weeks in Moscow for research and a heavy reliance on Russian emigre advisers. He then substituted the social democratic greyness of Scandinavia for the darker hues of the Soviet Union.

For a film-maker in permanent quest of authenticity, it went against the grain. When Apted filmed The Coalminer's Daughter, the story of an American country music singer, he lived in Kentucky for six months before shooting started, "sorting out what was true and what was false and generally getting the whole feel of the place". He later coaxed an Oscarwinning performance from Sissy Spa-

For Gorky Park, Anatoly Davidov, the man the Americans on the set call "the tame Russian", has told him how citizens in the Soviet Union smoke cigarcttes, how they drink their vodka and even how they sit to eat meals. At his most obsessive. Apted insisted on Michael Elphick, of Private Schultz fame, having silver fillings in his teeth for his part as a KGB informer 'Played havoc with my eating habits,' Elphick mustered darkly).

Apted started to immerse himself in Gorky Park last July after discussions with producers Howard W. Koch and Gene Kirkwood, who bought "the property" from galley proofs before its we have taken Renko and his girlfriend to New York and differentiated between them and the Americans? Had them suddenly speaking Russian with sub-titles? No way. We had to adapt it publication. Just three weeks later it was at No 1 in the US best-seller lists.

After his visit to Moscow. Apted

but I'm sure we're right," said Apted, pushing away his plate as we sat at

wooden tables in a school that had

been commandeered as a canteen.

"The film has to live on its own, in its

own right. We have to take certain

liberties. But I think we are being loyal

He fetched coffee in plastic cups. "Imagine the technical difficulties that

would have arisen if we'd stuck to the

book. All the way through - in the

scenes in the Soviet Union - we have

to the spirit of the novel."

His producers were less certain After his visit to Moscow. Apted chose Dennis Potter to write the screenplay. "He refused to do it unless he could change the ending." said Apted. "I agree with him." Instead of being set in New York, as in the book, the last part of the story is set in Stockholm. "There are going to be people who don't like what we've done but I'm sure we're right" said Apted about Potter's changes but Apted won them round: "I was with Dennis all the way," he said. Perhaps significantly, however, Cruz Smith, Gorky Park's author, has had nothing to do with the filming. Potter, on the other hand, has paid frequent visits to the various location sets, where he is held in awe, almost fear, by the mainly British supporting cast, who refer to him as "the scribbler"

Apted said simply: "Dennis knows what he's doing. I have tremendous respect for his work." Regarding his own obsession with authenticity, he said: "There are no excuses for not getting it right. This film is an opportunity for me to create a whole world. It is a challenge. It will be a commercial movie. It will sell in America first, and for Americans

Russians speaking English. How could Moscow is an unknown quantity, something they have never seen and find difficult to imagine. It should look like Star Wars to them, something outside their range of experience.

> "All the street signs, public notices and written messages are in Russian but the dialogue is in English. No awful broken accents either. I hate that."

> A big problem has been the exceptionally mild winter in Scandinavia. When the unit arrived in Helsinki in February the snow was several feet deep in places. It rapidly melted as spring arrived unexpectedly early. As he walked back to the set Apted glared at the rain-filled sky. "Snow," he said. "Snow, please, I need snow". When his prayer remained unanswered he moved the unit north above the Arctic Circle and used paper snow imported

from England for storm scenes. But Apted still faces his worst dilemma: how to deal with the terrifying opening sequence in which three bodies are found buried in Gorky Park, their faces removed by furrier's knife. "We have plastic bodies,

modelled on real people. They are the film took a whole Saturday to film, extremely realisic and of course the heads are pretty ghastly to look at, but they have to be shown because it is crucial to the plot. I'm not making a horror movie and I don't want to be accused to showing gratuitous violence, or the results of it, so what I have done is filmed the scene from every possible angle and it is a problem I will solve when we get to the editing stage later this year back in the States." One problem remained inso-luble. The Soviet Union still has a world monopoly on the Barguzin sables that play such an important part in Gorky Park. Apted had to settle for

pine martens. A street scene I watched featured reconstructed Moscow telephone boxes, a Soviet steam-roller and a bakery with more than a thousand loaves of specially baked Russian bread. As William Hurt, "living" Renko, crossed the road with public prosecutor lamskoy (played by Ian Bannen), specially hired Volga, Lada and Moskovitch cars rolled by and a scene that may be reduced to one minute in

The "bakery" was a popular coffee house in Helsinki. The film crew worked through a Friday night to convert it, then restored it to its original purpose on the Sunday ready. for business on Monday. The bread? "We feed it to the ducks," said the

unit's publicist, Howard Brandy. Joanna", he called. "Hey, come on over here, baby. I want you to meet a real live English journalist." Joanna Pacula, aged 25, is what Mr Brandy and his fellow PR men call "the face of things to come" - a former Polish-Shakespearian actress playing Renko's dissident girlfriend, Irina. Miss Pacula has a lot in common with Irina. In December 1981, visiting friends

in Paris, who included Roman Polanski, she heard that military rule had been declared in Poland and decided to stay in the West. "I have never been involved in politics. I just wanted to do my job as an actress, but they closed down the theatres. All my friends were without work. What could I do?"

From France she went to the United States, again staying with Polish emigre friends. In a diner on New York's 46th Street her handbag containing her passport and "the small amount of money I had left", was stolen. "I went to the Polish consulate and they gave me emergency papers but I had no country, no job, no money. I was just staring at the wall. In the best Hollywood tradition, it was at this moment that the telephone rang. It was Howard Koch, asking her to audition for Gorky Park.

"He was looking for an East European actress to play Irina so he telephoned to Roman in Paris, and Roman recommended me for the part. He saw me on stage in Warsaw three years ago and told Howard I was a respected actress in Poland.

"How do I see Irina? She is very strong. Her dream is to live in the West and she uses every chance to get there, but she is vulnerable too and falls in love with Renko. Me? I would very much like to be an American. There is not much left for me in Poland.

Miss Pacula is from a little country town called Tomaszow Lubelski. "My father is an engineer, my mother a pharmacist. She has few qualms about the sort of attention she is likely. to get after the premiere of Gorky Park in December. "I find my new existing," very interesting," she said. "There are so many possibilities all of a sydden. In

Poland there would be nothing.

The time of Solidarity was you exciting. Suddenly something was happening, you know? In my thouse everyone belonged to Solidarity. It was really a wonderful time. Now. Side

Even before the picture's completion she has a contract with Koch and Kirkwood for two more films and has received offers to make commercials for jeans manufacturers. "She's got a great future ahead of her if this film

succeeds," Koch said.

'Can't miss, Howard," someone called, "can't miss."

Michael Apted with monosyllabic Lee Marvin, top left; and Joanna Pacula, "the face of things to come", in profile and with Hurt

I was startled to hear playwright Stephen Berkoff on the radio last

week making a joke about how hard it was to find the Barbican. Yes, he actually did. He came right out and said he'd gone round it and past it but had never been able to find the

It is almost unbelievable that one of our leading writers should still be making 1982 jokes. Nobody has been making jokes about trying to find the Barbican since last autumn. when Channel 4 opened. Then people started making jokes about how hard it was to find Channel 4, or about how lucky people were who lived in places

where you couldn't get it. Channel 4 jokes have lasted quite well. They received a new lease of life recently when Mary Whitehouse complained of an offending item on it - perhaps

I say, have you heard the one about that purpose. As the cartoonist MOREOVER...Miles Kington

Spencer put it a few weeks ago: "Beats me how a channel watched by 5 per cent of the population can offend 95 per

But Channel 4 jokes are going out now, and TV-am jokes are coming in instead. In other words, people are beginning to ask how the comings and goings of performers watched by 1 per cent of the population can be of gripping interest to 99 per cent, and how TV-am can be the first channel in TV history which is read about instead of being watched. Punch's recent cover was as good a TV-am joke as any: a lone figure standing at the centre of a snowy waste saying: "David Frost. TV-am.

So if you have a good remark about Channel 4, you should make it now. In another week's time it will be totally out-of- mud, brickbats, custard pies date, because people are now

about Channel 4. How varied it | gets pelted until the next Aunt is, how good the film and book items are, what wonderful repeats and films they have, how refreshing the pop music programmes are, how unusually interesting their news coverage

But surely, you may ask, if Channel 4 is now getting praised, it must have been quite good to begin with. Why all the flak and criticism at the start? How can a national joke so soon be accepted as something quite good?

The answer lies in the curious habit the British have, and do not quite understand, of setting up Aunt Sallies in order not to knock them down. Almost every new set-up is pelted with and notion tomatoes. It may world where you can get it, for beginning to say nice things deserve them, it may not, but it give you a good ride. British it's Terry Wogan, whose only pound coin, of course,

Sally comes along, at which point the pelting suddenly gets transferred and the recent target is cleaned up and becomes a much-loved part of the English

when people started ambasting the Barbican, they didn't really mean they hated the place. What they meant was: We're tired of making jokes about the National Theatre. Some time this year, I forecast, the Barbican will start becoming an established and much-loved part of the cultural scene.

There's no logic about it, but nobody ever singled out the British as a highly logical nation. British Rail is a perpetual Aunt Sally, for instance, even though most trains arrive comfortably on time and

Rail sandwiches are a constant source of good humour, even though they are now more respectable then most, and often freshly cut. I myself enjoy travelling by train in Britain, yet I still find myself making jokes about our trains.

There's no logic about the way the British select bogey men in the Labour Party -Benn, Livingstone, Tatchell. Why is Arthur Scargill the baddy of trade unionists? Why do we always insist on there being one less than popular member of the royal family? Why must there always be somebody in showbiz who is a running gag for other per-formers? For many years it was Des O'Connor. Morecambe and Wise only had to mention the name and the audience disappeared under their chairs with laughter. Now, suddenly, it's not Des O'Connor any more -

fault seems to be a slight touch of ubiquity.

PROFILE: Lord Harlech

Sold . . . to the man from Camelot

If, as seems very likely, Knoff made are carried out. So there was International, the company run by no question of him leaving.

Mr Stephen Swid and Mr Marshall In the same year, his first wife, Cogan, gains control of Sotheby's, William David Ornsby Gore, 5th Baron Harlech, will add yet another string to his bow. Somehow or other. at the age of 64, he will find the time to be an outside administrative director - there are some who tip him as chairman - of a new Sotheby's board, just as he has found the time to combine the dent television company serving Wales and the West of England; with the presidency of the British Board of Film Censors, not to intention involvements in the Royal Institute of International Affairs and several

charities and pressure groups.

A certain numbleness of mind and body is needed to view the latest Monty Python film and immediately afterwards, take part in a discussion of defence and the Soviets Union without setting hopelessly mixed up. Lord Harlech coped admirably with this strange juxtaposition of appointments last week but said that what he really liked about being the British Ambassader to Washington (1961-65) was that you couldn't do anything else at the same time. This must have been the only period in his life when no one was tugging at his sleeve, asking him to organise a pop festival here, a consortium there and, while he was about it, could he spread a little goodwill around Africa, too.

committed to the European Community and to electoral reform. When I suggested that the SDP might seem a natural home for a man with these convictions, he said he felt perfectly at home among "what I consider to. be the wiser elements in the Conservative Party. I've never been tempted to leave; I suppose I'd be regarded as a Tory wet. I do think that the reorganization of industry could have been achieved without quite such a holocaust".

House of Lords, he doesn't go there much nowadays and thoroughly are late Cecils through and through. disapproves of its present composition. "The House of Lords doesn't represent any particular constitu-ency in the country, so in any important clash with the Commons. it has to give way. I'd be in favour of an elected upper house, using a system of proportional representation; this is not a particularly radical suggestion. I think the present system leads to confron-

Lord Harlech, happy to ride a favourite hobby-horse, stretched his long tegs in a well-satisfied manner. We were sitting in his office at the London quarters of HTV. "I wanted that sort of thing," he said, and so he has. His office was designed by David Minarie in bright blocks of vellow and rusty pink. There is a boardroom table at one level and, lower down, a "conversation pit" with cushiony leather chairs and a view of the terrace. As working environments go it is perfectly.

He had not really meant to be an almost full-time working chairman of a television company and was rather surprised when his consorlium, which included Richard Burton and Elizabeth Taylor, was awarded the franchise in 1967. When it did win, Lord Hill of Luton, the then chairman of the then ITA (Independent Television Authority) said sternly. "I'm relying on you,

David, to see that the promises you

Sylvia, died in a car crash, at the age of 45 and after 27 years of marriage, and he thought that to resume his political career without her would be agonisingly louely. Among the men in independent television, hardly a soft-hearted bunch, he has won exeatrespect for the way he unites his

company's two boards, representing the two different regions, according to one executive, this is particularly impressive because the two boards explorers discovering a tribe of

persistent critic of the way independent television is run. He said that as a company HTV tended to have the philosophy of television and its political aspects "constantly under discussion" and this is borne out by the" bask flow of letters to this

the bask flow of letters to this newspaper written by his managing director, Ron Wordley,
As -David Ormsby Gore, he became Conservative MP for Oswestry in 1950, at the age of 32 and followed in several pairs of family footsteps. His father was a Conservative MP for 28 years and a Cabinet minister in Baldwin and Chamberfain governments. On his mother's side he is presented to the mother's side, he is related to the great Tory clans of Cecils and Cavendishes and, through his sister, Katharine, the Macmillans. Although he once longed to do He has always been equally something different and daring such as going into business, "the pull was too great." His parliamentary career was enviably straightforward: PPS to Selwyn Lloyd then an Under-Secretary of state for foreign affairs and, 60 days later, Minister of State in the same department. I suggested that his family motto "Late but Earnest" could not really apply to a man who achieved so much, so early. He said that the motto belonged to his mother's family, the Cecils, and, as far as he was concerned, must refer Although he was once the Deputy to their famed unpunctuality, Leader of the Opposition in the Although he himself takes after the more punctual Harlechs, his sisters

> "When I was 16, I had to take an older sister to a formal dinner party. I kept on chivying her to get ready but she lingered and lingered and, by the time we got there, to my great mortification, our places had been taken away."

The early ladder-climbing seemed to point the way to his eventually becoming Foreign Secretary. In-stead, Harold Macmillan asked him to go to Washington as Ambassador, He took three days to decide whether to go. At the time, he didn't know that acceptance would mean the virtual and of his political carear, but even when he resized that it would, he never regretted his

The deciding factor, in his accepting the job was that his close friend, John F. Kennedy, had just become America's President He had first met Kennedy when the latter was a 21-year-old student at the London School of Economics. Kennedy's sister Kathleen, married Lord Hartington, Lord Harlech's cousin and Harlech married Katleen's best friend, Sylvia Lloyd Thomas. The two families were more grimly united by death: both Kennedy's and Harlech's older brothers died young as did several

Kennedy thought Harlech the wisest man I have ever known" and their friendship put several political noses out of joint. "It was a very exciting time", is all Lord Hatlech will venture on the Camelot era and

his promised account of the daily conversations with the President has never been published. But according to other sources. Harlech's influence was enormous. The Washington columnist, Andrew Tully, wrote that without Harlech's restraining influence, the Bay of Pigs episode might have escalated into war. To deal with such a potential powder keg must have required great sensitivity from the Ambassador, whose own mother, when he was a little boy, nicknamed him Trotsky because of his rebellious temperament.

Washington, the Sixties were begin-

ning to swing. His children became

the darlings of the King's Road, particularly his daughter Jane, who with her husband, Michael Rainey, ran one of the most exciting of the crop of new boutiques called "Hung on You". Lord Harlech, as much as his children, blossomed in the 1960s, which he recalled with wistful nostalgia. "Life was a very joyful experience. The philosophy that there was more to life than the rat race and the daily grind, all that I found admirable. I liked the idea that people, especially men, should look more beautiful, although this has not been wholly successful I By the time he returned from find it very odd that now we're all back in pinstriped suits."

. He vividly described a dance given for his children in 1965 - "the year when everyone looked quite wonderful". The marquee was hung with a tapestry, the musicians played from a platform that rose out of the dance floor. "Cecil Beaton said it was the most beautiful dance he'd ever seen." He was the most supportive and sympathetic of parents. When his daughter, Alice, took up with Eric Clapton, during the musician's intensively drug-rid den period, he tried to help him come off drugs. For such gestures he received much abusive mail. Of his rainbow-clad children, one, Julian, found dead in 1974; the

Their lives are now far too industrious for the gossip

In 1967, after years of quietly respectful recognition of his achievements, he became an international celebrity over something that he didn't do, which was to marry Mrs. Jacqueline Kennedy. It would have been too much to hope that an eligible and handsome man who had

recently lost his wife could go on a trip with the most fascinating widow in the world without causing

"If I got on a plane, there would" be a journalist in the next seat. Newspapers even described the clothes I wore. In some respects, it was disagreeable to be followed everywhere but we tried to rise above it and have always remained good friends." This good friendship led to one newspaper publishing about Harlech a nine-part series and a Sunday colour supplement making him the cover story.

In 1969, he married a woman with the same assured New Yorkinspired elegance as Mrs Kennedy-Pamela Colin was the London editor of American Vogue, a dynamic career woman. Thirteen years on, by a process of osmosis, she has the comfortably spread-out shape of aristocratic Englishwomen and like them, she spends a lot of time

cooking superbly.

The Harlechs' wedding was attended by the Snowdons and Patti Boyd and George Harrison, some-thing which perhaps prompted a-snarling New Statesman writer to say that Lord Harlech's not "say much a distinguished name as a glamorous one." The glamorous label stuck more firmly when he became the chairman of Great Western Festivals and wanted to organize a pop festival "which," wasn't a terrible rip-off for both artists and fans". His reward was more abusive mail and an obtrusive and unnecessary police presence at the festival.

Referring to Sotheby's, the word "unfair" was often on his lips. One "
"unfairness" was that Mr Graham
Llewellyn, Sotheby's chief executive,
has said that Mr Swid and Mr Cogan "know nothing about the art auction business and nothing about Britain". in fact, both men sit on the boards of several museums and galleries and are art collectors. "I compare their achievements with those of some of the directors of Sotheby's, including the chairman," said Lord Harlech stonily.

He himself has been a trustee of the Tate Gallery and is on the advisory committee of the V & A. His wife, like her father, Ralph Colin, has a considerable knowledge of the art world and HTV is involved through its own fine art company, Frost and Reed. Little wonder then that the normally unflappable Lord Harlech got angry when a reporter suggested that he might be allying himself with the Philistines, "I thought that Mr Cogan and Mr Swid were not being fairly treated. It seemed to me that they had some reasonable ideas that Sotheby's ought to listen to but they weren't given a fair hearing. They would have liked to have had a friendly discussion but were denied shareholders won the company, Chairmen can sometimes forget that this is the case."

It's an unpleasant situation but Lord Harlech is used to such things. The man who was Britain's special envoy to Africa on the problem of Zimbabwe in 1979 and described his role as "an exercise in quiet diplomacy"; the man who accused the Russian delegate to the UN, Mr Zorin, of "an intemperate and misleading outburst" without lasting harm being done, can surely organize the way pictures come under the hammer. And if it leads to more public baiting? Lord Harlech smiles tolerantly. "I don't worry about those things a great deal."

Penny Perrick

FINDINGS

The giant turtle: conservation methods now being questioned

Floating a new theory

These are the days, the shade of Solomon reminds us, when "the flowers appear on the earth; the time of the singing of birds is come, and the voice of the turile. is heard in the land". This year's voice as it happens is. likely to be the inspiration for a tair amount of Solomonic wisdom as scientists struggle to come to terms with a booklength argument that throws many of their most cherished

assumptions into a cocked hat. The conservation of sea turnes is not, on the face of it, the most promising target for an iconoclast. But any dedicated speciality breeds its own fanatic obsessions, and these grotesque marine amphibia more than: most a protective tenderness that can only be described as maternal seems to motivate those scientists who study the

"Sea mittles are beautiful complex creatures, mysterious likely to entrage.

Is the practice of tagging the biologist, absorbing for similar to the ringing of birds, anyone to watch, and of great worth the considerable time and value for their eggs, meat, shell effort when most of the tags dilution if conservation or University of Glasgow.

Mrosovsky writes in Conserving Sea Turtles (British Herpeto logical Society, c/o Zoological Society of London, Regent's Park, London NWI 4RY, £5). His criticisms assume that "the intentions of those active in sea turtle conservation are inteproachable. It is only the means of proceeding that I wish to debate". Dr. Mrosovsky edits the

and leather, Dr Nicholas

Marine Turtle Newsletter, an agreeable if irregularly pub-lished periodical of less than world-bearing circulation, from the University of Toronto, where he holds professorships in zoology and psychology. The British Herpetological Society is well aware that in publishing his book, it has entered "highly controversial and emotive" waters and could itself become one of the "victims of human dissension, power and territo-

Leaving aside the author's commonsense dismissal of accurately to sex a batch of some conservation arguments (for example that all species of them all. sea turtle are in danger of imminent extinction), it is his cations in much of this comments on technical and particularly when the question

probably fall off anyway? Head-starting capturing Head-starting capturing batchings from the wild and rearing them in captivity for release later, is another popular technique, the theory is that the captive-reared turiles will be stronger and likelier to survive. stronger and likelier to survive.

Where is the evidence that head-starting", works? Or is it he professes to hold dear. There is something a bit sinister, even obverse of animal sacrifice, a about the luguistious marine turtle, when its protectors start benefit of the scientists than the "It might not be relevant to

inquire into these feelings if the science of head-starting were more robust", Dr Mrosovsky notes dryly. "But its weakness leaves a vacuum for the irrational and emotive." The Styrofoam box, curiously

enough, is another subject that causes the hearts of marine turtle biologists to flutter. The boxes are ideal for incubating eggs, they protect them from predators, are easily handled for study, and can improve hatching rates. But in the 1970s there began to emerge an absurd. even obscene, consequence of using such boxes: the minute temperature differentials between the Styrofoam and natural environments seemed to cause an imbalance between male and female hatchlings. About 23 per cent more males is

the latest thinking. The famous dictum of Ogden Nash - "The turtle lives 'twixt plated decks/Which practically conceal its sex" - still holds true, moreover. The only way hatchlings is to kill and dissect

There are broader impliscientific matters that are most arises of what to do with the captive bred or reared animals.

commercial farming operations succeed in encouraging other races to flourish? At some stage, the author implies, conservation tech-niques and attitudes become self-defeating, and science is harnessed to the service of the

playing God.

Konrad Lorenz is best known to non-specialists for his "imprintexperiments, one of

brood of goslings following thought he was their mother The great animal behaviourist, long since a Nobel Prize winner is 80 this year and among the many celebrations in his honour is an international symposium on relationships between humans and their pets, to be

held in Vienna in October. Scientists from 14 countries including for the first time, several in eastern Europe, will discuss the mechanisms by which a human-animal bond can improve health, prolong life and render a wide range of social and behavioural prob-lems more amenable to treatment. Bizarre though it may seem, doctors, psychologist and social workers who have tried "pet therapy" are con-vinced of its benefits. The Americans, of course, are pioneers in the field, but most developed countries harbour enthusiasts, and Britain has its

Jago, the orang-utan that made history

This is Jago, born in London zoo in Regent's Park on March 12, 1982, and pictured in the newly published Annual Report of the Zoological Society of London for that year, "The date was particularly notable for the captive breeding of this endangered species" because it coincides with the birthday of Bulu, Jago's 22vear-old grandfather. Jago is "the first orang-utan to be born in Britain from two captive-born parents", the report continues. The baby is being successfully reared by his mother Suka, despite

the fact that she was herself hand-reared. With a deficit of just under £1.4m at the end of 1982, the report makes sombre reading in some parts, although the society can claim more than enough captive breeding successes to be getting on with, including the rearing of the first gaur calf to survive in Britain, and the birth of two black rhinoceros calves, one of them named after Esther Rantzen. The giant pandas, as usual, failed to breed, although their perennially optimistic keepers say they are

Monster body

ned body called the International Society of Cryptozoology that has been formed to collate, investigate and (dare we suggest it?) inspire infor-mation on what might as well

be known as para-biological phenomena: "animals of unex-pected form or size, or unexpected occurrence in time and space, such as the yeti, sasquatch and the various lake monsters of the world." Readers who have seen the Loch Ness monster or ET should write not to The Times, but to the Society at PO Box 43070, Tucson, Arizona 85733,

Zoo hideaway

Britain's first made-to-order bat cave is to be created at Whipsnade Zoo this summer. Bat populations are thought to be declining because suitable sites for hibernation have been in short supply of late: disused railway tunnels, which the artificial cave may well resemble, are ideal.

Running total Where are the

hares of yester year? The Scot-Wildlife Trust and the Game Conservancy, for a start, would like to

know. The population of brown hares seems to have been declining since the early 1960s at about 3 per cent a year, although statistics are as clusive as the animal itself.

A vice-chairman of the trust writes in a recent issue of its magazine that he tried an ad hoc hare count last May during a northbound train journey ... before the corn and hay crops were too high.

dark, my score of bares seen from the train window was as follows: Yorkshire 2, County Durham nil, Northumberland nil, figures which read more like a World Cup disaster than a count of what was until recently a common animal of the countryside".

Between York and mid-Nor-

thumberland, when it got too

No evil aye-aye

The unnerving aye-aye

The simple folk of Madagascar, could hardly be blamed for seeing their very own aye-aye as in a portent of bad luck. With its enormous staring eyes that glowin the dark like a cat's or an owl's, its long skeletal fingers... and its unpleasant eating habits, ... encountering an aye-aye in the forest at night must be a little like watching Psycho while. taking a shower.
The World Wildlife Fund is.

changing all that, however, withan education programme to convince the islanders that the little creature, now, of course, very nearly extinct, is reallygood fun and nice to have around. The effort may besucceeding: ecstatic reports from a nature reserve off the northeast coast confirm the first ayeaye known to have been born in the wild for more than a decade. The aye aye is the rarest of the lemurs and is thought to be one of man's earliest progenitors. It clambers through the trees at

Independent Radio News bulletins vesterday carried an item about a rare lamb stolen from a Sheffield park, and an offer that if the thieves return it they can take any other lamb instead. I do not want to prejudice the baa-lamb's chances, but it is a prima facie offence under the Theft Act 1978 to advertise or a publish an offer of reward in terms suggesting that no questions will be asked. Fine: £100 on summary conviction. I thought they should be

George Gillert has seen an end to Tory cuts. At the age of 85 he has retired from barber's chair in the

basement of the Carlton Club. Some would claim that he was the country's oldest working hairdresser but I do not want to I provoke a rash of ancient barbers I father of Richard Brinsley Sheridan, cager to contest the title. Before going to the Carlton, Gillert was at the Constitutional a few doors away, Yso he trimmed most top Tories, vincluding Harold Macmillan and Sir AWinston Churchill, who was his most disagreeable customer. When Gillert was at the Constitutional the Savage Club had part of the same building, so Gillert tended stars like Arthur Askey and Wee Georgie Wood as well. Secretly I think he really preferred Savages to politicians as customers.

Salman Rushdie takes a dissenting view of 'Gandhi'

Truth retreats when the saint goes marching in

Deification is an Indian disease, and in India, Mohandas Karamchand Gandhi, great soul, little father, has been raised higher than anyone in the pantheon of latter-day gods. "But why". I was asked more than once in India recently, "why should an Englishman want to deify Gandhi?" And why, one might add. should the American Motion Picture Academy wish to help him, by presenting, like votive offerings in a temple, eight glittering statuettes to a film that is inadequate as biography. appalling as history, and often laughably crude as a film?
The answer may be that Gandhi

The answer may be that Gandhi (the film, not the man, who irritated the British immensely, but who is now safely dead) satisfies certain longings in the Western psyche, which can be categorized under three broad headings. First, the exotic impulse, the wish to see India as the fountain head of spiritual-mystical wisdom. Gandhi, the celluloid guru, follows in the footsteps of other pop holy men. The Maharish blazed this trail.

Second, there is what might be termed the Christian longing, for a "leader" dedicated to ideals of poverty and simplicity, a man who is too good for this world and is therefore sacrificed on the altars of history. And third, there is the liberal-conservative political desire to hear it said that revolutions can, and should, be made purely by submission, and self-sacrifice, and non-violence alone. To make Gand-hi appeal to the Western market, he had to be sanctified and turned into Christ - an odd fate for a crafty Gujarati lawyer - and the history of one of the century's greatest revolutions had to be mangled. This is nothing new. The British have been mangling Indian history for

centuries.

Much of the debate about the film has concerned omissions: why no Subhas Bose? Why no Tagore? The film's makers answer that it would have been impossible to include everything and everyone, and of course selection is central to any work of art. But artistic selection creates meanings, and in Gandhi these are frequently dubious and in some cases frighteningly naive.

Take the Amritsar massacre. This is perhaps the most powerful sequence in the film. It made me cry. Both the massacre and the subsequent court-martial, at which outraged Englishmen question the unrepentant Dyer with barely suppressed horror, are staged accurately and with passion. But what these two scenes mean is that Dyer's Sultanas would leap at it, but the actions at Jallianwala Bagh were those of a cruel, over-zealous individual, which were immediately condemned by Anglo-India. And that is a complete falsehood.

The British in Punjab in 1919 were panicky. They feared a second Indian Mutiny. They had night-mares about rape. The court-martial may have condemned Dyer, but the British in India did not. He had taught the wogs a lesson; he was a hero. And when he returned to England, he was given a hero's welcome. An appeal fund launched on his behalf made him a rich man. Tagore, disgusted by the British reaction to the massacre, returned his knighthood.

In the case of Amritsar, artistic selection has altered the meaning of the event. It is an unforgivable

Another example: the assassin-ation of Gandhi. Attenborough considers it important enough to place it at the beginning as well as the end of his film; but during the intervening three hours, he tells us nothing about it. Not the assassin's name. Not the name of the organization behind the killing. Not the ghost of a motive for the deed. In a political thriller, this would be merely crass; in Gandhi, it is something worse.

Gandhi was murdered by Nathuram Godse, a member of the Hindufanatic RSS, who blamed the Mahatma for the partition of India. But in the film the killer is not differentiated from the crowd; he simply steps out of the crowd with a simply steps out of the crowd with a gun. This could mean one of three things: that he represents the crowd—that the people turned against Gandhi, that the mob threw up a killer who did its work; or that Godse was "one lone nut", albeit a lone nut under the influence of a spiritual looking sadhy in a rickshare. sinister-looking sadhu in a rickshaw; or that Gandhi is Christ in a loincloth, and the assassination is the crucifixion, which needs no explanation. We know why Christ died Ut died to the critical in the crucifixing which needs no explanation. died. He died that others might live.

But Godse was not representative of the crowd. He did not work alone. And the killing was a political, not a mystical, act. Attenborough's distortions mythologize, but they also lie.

Ah, but, we are told, the film is a Ah, but, we are told, the film is a biography, not a political work. Even if one accepts this distinction (surely spurious in the case of a life lived so much in public), one must reply that a biography, if it is not to turn into hagiography, must tackle the awkward aspects of the subject as well as the lovable side. The as well as the lovable side. The brahmacharya experiments, during which Gandhi would lie with young naked women all night to test his will to abstain, are well known, not without filmic possibilities, and they are, of course, ambiguous events. The film omits them. It also omits Candhi's fondness for Indian Gaudhi's fondness for Indian billionaire industrialists (he died, after all, in the house of the richest of them, Birla House in Delhi). Surely this is a rich area for a biographer to mine: the man of the masses, dedicated to the simple life, self-denial, asceticism, who was financed all his life by super-capitalist patrons, and, some would say, hopelessly compromised by them? A written biography which failed to such murky waters would not be worth reading. We should not be less critical of a film.

Gandhi presents false portraits of most of the leaders of the independence struggle. Patel comes across as clown, whereas he was one of the hardest of hard men. And it was witty to portray Jinnah as Count Dracula. But the important changes are in the personality of Nehru and in the decision to erase Bose from

In both cases, dramatic interest has been sacrificed in the interests of deification. Nehru was not Gandhi's disciple. They were equals, and they argued fiercely. Their debate was

central to the freedom movement -Nehru, the urban sophisticate who wanted to industrialize India, to bring it into the modern age, versus the rural, handicraft-loving, sometimes medieval figure of Gandhi: the country lived this debate, and it had to choose. India chose Gandhi with its heart, but in terms of practical politics, it chose Nehru. One can understand nothing about the nature of India's independence unless one understands the conflict between these two great men. The film, by turning Nehru into Bapuji's acolyte, manages to castrate itself.

And Bose is selected out. Bose the guerrilla, who fought with the Japanese against the British in the war, Bose whose views could have provided another sort of counterweight to Gandhi's and so improved the film. But Bose was violent, and the film, if it means anything, seeks to mean that non-violence works. and that it could work anywhere, in any revolution. All counter-are ments are therefore rigorously

The message of Gandhi is that the best way to gain your freedom is to line up, unarmed, and march towards your oppressors and permit them to club you to the ground; if you do this for long enough, you will embarrass them into going away. This is worse than nonsense. It is dangerous nonsense. Non-violence was a strategy chosen for a particular people against a particular oppressor, to generalize from it is a suspect act. How useful would nonviolence have been against, say, the Nazis? Even in India, the leaders of

the independence movement did not succeed because they were more moral than the British. They won because they were smarter, craftier, better fighting politicians than their opponents. Gandhi shows us a saint who vanquished an empire. This is a

All devotees of unintentional comedy will relish the scenes in Gandhi in which Bapu re-enacts his marriage for the benefit of a western ournalist; in which one man's hunger strike pacifies a rioting Calcutta, and repentant hooligans promise Gandhi that they will adopt Muslim orphan children; in which Mirabehn is played as a woman in a permanent hypnotic trance; or in which the partition is sorted out during a two-minute break in the independence negotiations. If this is the best film of 1983, God help the

What it is, is an incredibly was dedicated to the small-scale and to asceticism. The form of the film, opulent, lavish, overpowers and finally crushes the man at its centre, in spite of Ben Kingsley's luminous performance (at least he deserved his Oscar). It is as if Gandhi, years after his death, has found in Attenborough the last in his series of billionaire patrons, his last Birla. And rich men, like emperors, have always had a weakness for tame holy men, for saints.

Salman Rushdie is the author of Midnight's Children, winner of the 1981 Booker Prize.

despite cries from the balcony, "Stop, stop, John Gilpin! Here's the house!" The animal cannot be reined before reaching his objective,

his stable at Ware. The escapade has come under scrutiny by a number of scholars, none more diligent than the vicar of St James's Upper Edmonton, in 1906. The Rev Lucius Fry, MA, worked out by a complicated process that John Beyer had made his ride in about 1743. From the top of Cheapside his route would have been along Aldersgate Street gather-ing speed (as the poem aftirms) in

The wind did blow the cloak did over Stamford Hill, through Tottenham, and so, via Dalston, to Edmonton. The Bell was a well-known posting inn on the highroad to the Fens, demolished about 1876 Edmonton is inclined to look on Gilpin as a patron saint, especially as the sale of three editions of the poem - each of 2.000 copies - raised money to build Gilpin Hall for the parish. Decorating the shrine were 128 prints of the famous ride, among them 20 woodcuts bought for 15 6d at Seven Diale. 1s 6d at Seven Dials.

The Seven Dials purchase predates by about 50 years another bargain - a copy of the poem illustrated by Cruickshank, picked up in Marsham Street, London, for a few shillings by David Temperley. From that chance buy 20 years

ago Mr Temperiey, then an undergraduate, now an antiquarian bookseller, has built up a remarkable collection of Gilpiniana. He is lending it to Guildhall. Nearly 300 separate items crowd one room of his home in Edgbaston,

Birmingham. John Gilpin hangs from the walls; Gilpin is piled high on tables, from plates, jugs and Victorian Staffordshire crockery, Gilpin peers out of a glass-fronted

Cowper was pleased that, as a result of Gilpin, he had "on a sudden become so famous." He also found it very strange that his most hudicrous lines had been written in the saddest of moods. Stranger still is the way his poem has given rise to what amounts to a Gilpin industry.

Julie Davidson

Red Army's new camp follower

"Come on, ye Reds...here we go, here we go, here we go... the northern lights of old Aberdeen".

That's it, I thought, it has finally happened. The ultimate capitulation. Like some late deflowering of feminist purity I have admitted football to my life. And in Munich, of all places; in the hotel where once Hitler plotted Third Reich politics with his cronies. A lifetime's resistance to the terrible tyranny of football—the chants, the roars, the excitements - at last began to crumble. I had joined Aberdeen's

Red Army.

For Aberdeen, the morning after they held Bayern Munich to a goalless draw was one milestone on their road to the final of the European Cup-winners Cup. For me, it was a stepping stone on the cash to comment to a stepping stone on the cash to comment a process. me, it was a stepping stone on the path to compromise, a process effected, inevitably, by the loving fascism of marriage, wherein one parmer's compulsion to share insights and pleasures with the other becomes well-nigh fanatical.

The deal is that he now calls himself a feminist, although he has yet to earn that right, just as I have yet to earn the right to call myself a fan, which apparently is something you become only after 20 years' submersion in acid rain on empty. terraces. But at least I can claim kinship with the city of the Dons and begin to go the way of all those who discuss football.

This is the first time that the slow developing Dons have reached a European final, and when they meet Real Madrid in Gothenburg on May 11 they will bring to the field an unusual compound of Scottish elements, none of which normally

In players, manager and directors fast, sharp, streetwise Glasgow energy joins forces with slow-moving, far-sighted Aberdeen opportunism and admits a dash of manipulation Edichustry agreement. The practice of the property ive Edinburgh manners. The man-ager. Alex Ferguson, and the captain, Willie Miller, come from Govan and Bridgeton, two of Glasgow's inner city obstacle courses for young ambinion; the star player, the little ginger-haired forward Gordon Strachan, comes from Edinburgh; and the directors represent the most efficacious qualities of oil and granite.

The Aberdeen board has only three members. Like the rest of the city the club dislikes waste and garrulity and this influential triumverate holds lightning meetings and makes fast decisions, displaying the kind of impetus which gave their ground, Pittodrie, the first all-seated stadium in Britain.

One morning in March I woke up in entertainments interests – cinemas, the Hotel Vier Jahreszeiten in bingo halls and the fine His Munich and began to nibble at a Majesty's Theatre, now the property scrap of song hanging in my head of Aberdeen District Council Dick's son Ian is another director and the "Guantanamera". The words were machinery of promotion and public novel: "One Willie Miller – there's relations is kept well-oiled by the only one Willie Miller." Other stray vice-chairman, Chris Anderson, an unes fractured by the collection of th "Come on, ye Reds... here we go, graceful social manner and casy intelligence have also made him a leading spokesman for the premier division of the Scottish League.

Perhaps the only characteristic of the Scottish stereotype missing from the Dons' composite is the mysti-cism of the Celts, who choose to play-shinty instead; although Celtic doom may be represented in the club's with his cronies. A lifetime's intermittent flirtation with self-de-resistance to the terrible tyranny of struction, something which is much football - the chants, the roars, the rabble-rousing rhetoric of its arcane excitements - at last began to Excitements - at last began to the quarter-final, when the two critical goals were scored within 13 minutes of the final whistle, they went on to lose a succession of silly games in the Scottish league.

These symptoms of manic de-pression are not at all typical of pression are not at all typical of Scotland's north-east, whose temperament is stable, unemotional, self-interested and shrewd, lts instinct for survival goes back a long way, when "Butcher" Cumberland was on his way north to sort out the Jacobites at Culloden, Aberdeen gave him a civic reception. Of all the Scotlick cities it least needed the Scottish cities it least needed the benisons of oil; it had prospered from agriculture, fishing and light industry but accepted the petroleum windfall as if it were no more than

lt has been argued that the city's prosperity and indeed complacency militated against success in football for a long time. The club was founded in 1903 (some 52y it takes its nickname from the number of academics among its founder members) but it was 43 years before it began to build any kind of it began to build any kind of consistent reputation. Not hungry enough, the pundits said: Aberdeen lacks the partisan palates of the Glasgow clubs, the mean appetites of the Dundee clubs, the capital teeth of Edinburgh's Hibs and

But somehow it was inevitable that some day the Dons should find themselves as they do today, within reach of triple glory and poised to smash the dominance in Scottish football of Rangers and Celtic. They have already knocked Celtic out of the cup competition and meet Rangers in the final, despite: stumbles they are still racing Celtic and Dundee United to the top of the premier league; and they are the only British team to reach a European final this season.

Forty-three years, after all, is a mere blink in the eye of a city which has set its sights on success for centuries. Slow to rouse, its emo-tions are now approaching eestasy as 15,000 fans prepare to cross the sea to Gothenburg. Sadly, for a variety of reasons, I

The chairman is Dick Donald, won't be there. Admitting football to patriarch of a durable dynasty which my life is one thing; admitting my life is one thing; admitting has owned and run most of the city's Sweden is another.

Gerald Kaufman

Mrs Thatcher, beware the Ides of May

Labour had done exceedingly well in the local elections in Manchester the previous day. Dick Crossman brought similar news from Coven-try. Throughout England and Wales Labour had made a net gain of 443 seats. This voting pattern reinforced the government's lead in the opinion polls and confirmed Harold Wilson's intention to seek a dissolution of Parliament. Six weeks later, Mr Edward Heath was in 10 Downing

Of course, there are considerable differences between May 1983 and May 1970. This Parliament has not or 13 years ago. This Conservative government's lead in the opinion polls today is of much longer duration than Labour's in 1970. On the other hand, there are even greater similarities.

Now, as then, the Prime Minister is, at any rate according to poll findings, much more popular than the leader of the Opposition. Now, as then, there is a feeling in some quarters that the Opposition is so unready for battle that the Government must inevitably coast home comfortably to victory. In 1970 the balmy spring weather engendered even greater complacency, causing Labour supporters to believe that their party was home and dry. The government entered the election a confident winner. Its downfall was all the more devastating: hubris had been recompensed with Nemesis.

I am not seeking to prove that history is sure to repeat itself-history is not necessarily like that at all. What, on the other hand, cannot be denied is that no one is a winner until the finishing post is reached. In the next seven days Mrs Thatcher faces the most difficult decision she has ever had to make. I remember so clearly Harold Wilson's sunny press interviews in the garden of optimism about the outcome, the of plastic. dull feeling at the pit of my stomach: the knowledge that this was it, that there was no turning back.

If Mrs Thatcher decides to go ahead and call a June election, she will be burdened with that knowledge 100. After all, she cannot really be confident of winning a spring election. Otherwise we would be in the middle of one now, she would not have had to wait for the local elections. elections to confirm her certainty. Nor will this Thursday's voting tell

On the morning of May 8, 1970, I learn. Because of the higher turn-out reported to the Prime Minister that in the 1979 local elections, which were held on the same day as the partiamentary polling Labour, on that otherwise catastrophic day, actually gained 504 seats. So even if there were to be Labour net losses this week, these would not of themselves indicate a general elec-

tion victory for the Conservatives. No doubt the Conservative Central Office computer is already programmed to feed Thursday's voting patterns into the framework of the new constituency boundaries. Presumably, sophisticated extrapol-ations will seek to compensate for the low poli that is to be expected. However, even if the results turn out unequivocally good for the Govern-ment, these will not necessarily be translated into victory in a rushed general election; the experience of 1970 warns of that if nothing else. Mrs Thatcher has made a missake

that is already grievous, and which might turn out to be calamitous, by allowing election speculation to build up as much as it has. If she feels able to request a dissolution on the basis of lavourable local election results, it will be clear that she has not done so in conformity with her Resolute Approach, since the resol-ute thing to do would be to keep Parliament at work for its full term. She would be seen to be pursuing blatant party advantage. The Boadi-cea of the Faiklands would have become just another conniving party politician, "Cut and run", the label she fears

most, would dog ber throughout the campaign. The alternative, however, is little more attractive. Mrs. Thatcher's reputation is vulnerable to delay as well as to haste. She told the Commons the other day. "I shall not cut out any options". Accordingly, if she rejects the June option it will now be obvious that she has done so because she remains unsure that she can win. Charges of cut and Number 10 on the afternoon of May run would be replaced by jeets that.

18. the day the general election was she is running away. The fron Eady announced. I recall despite my own would reveal herself as really made.

The Prime Minister faces an unenviable dilemma for which she can blame no one but herself. As she agonizes at Chequers next weekend over her decision, which she has confirmed is hers alone to make, she will be haunted by the numinous words written 150 years ago by one Lorenzo Dow: "You will be damined if you do. And you will be damaed if you don't". I hope the weather keeps fine for her.

Felix Barker her as much as she would like to Manchester, Ardwick The author is Labour MP Jos

Two centuries of a runaway success

Gilpinus erat municeps Honeste aestimatus: Londini etiam militum

In oppido legatas. No need, of course, to translate. For readers of The Times this version, put into Latin during the last century by "Roberto Scott, Collegii Balliolensis" who became Dean of Rochester, should set no problems. Some might however, have trouble with the Chinese and Persian renderings. Not everyone will be at home with the one in Orkney

There appears to be an unquench-able and international fascination in the epic comic poem more familiar to us, which starts

A PRINCELY PERFORMANCE

The Queen is Queen of seven- empire before accession. King naturally be prudent counsel to teen monarchies in the Commonwealth. That position may seem to defy the exacting notions of modern political science. However, it remains a fact that this monarchy is still a potent symbol of national unity and constitutional leadership in sixteen completely free countries, independent of Britain, which are literally continents apart geographically, socially and culturally. It may be asked how a single person can encompass so many identities, and there is no obvious answer. It must lie at the deeper level of consciousness among the countries concerned. How clse can one explain the monarch's ability to cross these continental divides and retain hold of the allegiance of Australasian, North American, Carib-Asian and Polynesian

Moreover, the position of the Crown in the British body politic is enormously strengthened by this extra dimension. It puts the Queen, vis a vis her British Prime Ministers, at a much greater advantage than, say, the Benelux or Scandinavian monarchies. They do not have other Prime Ministers with rights of access and continuous close relations scattered across the globe. This strength is vividly portrayed at each meeting of the Commonwealth heads of

Improvement of pre-trial procedures

approach.

Complaints Board

Sir, In your Legal Affairs Correspondent's admirably succinct account (April 25, 26, 27) of the amended orm of the Government's Police and Criminal Evidence Bill attention is drawn to the omission of two of the Royal Commission on Criminal Procedure's main proposals, a public prosecution service separate from the police and the tape recording of interrogations in police stations.

It is inferred that in the eyes of many the balance of the Bill, as compared with that envisaged by the royal commission, is wrong and is not capable of being put right. This line of criticism appears to assume that the reform of the whole of pretrial criminal procedure, including both investigation and prosecution, could and should be comprehended in one and the same statute. I am bound to say that this was never assumed by the royal commission, and as chairman I did not regard it as practicable.

In announcing the establishment of the royal commission the then Prime Minister said that it would be concerned essentially with matters of principle, a prescription which we followed in developing the framework for re-formulating pre-trial procedures which, in fact, had not been comprehensively reviewed for 150 years; and we went into detail only to the extent necessary to test the practicability of our proposals and to illustrate how they might

Much essential further work was deliberately left to the Home Office, to the Attorney General's depart-ment, and to the legal and parliamentary draughtsmen, including, for example, the reform in detail of the police complaints system and the formulation of codes of practice

Sir, Mr Gerald Kaufman, MP, writes

an article (April 25) about the problems caused by the fact that a

certain current Bill does not clearly

state how it applies to past transactions. Such complaints are

statute users.

From Mr Francis Bennion

From the Chairman of the Police to govern interrogation and identifi-

In putting forward the Bill in its present form, whilst at the same time indicating its commitment to the principle of tape-recording interviews subject to further experiment, the Government is proceeding consistently within the general

Likewise the Government has indicated its acceptance, in the Home Secretary's words, of a strong case in principle for a prosecution service independent of the police" and has set up a working party to examine the main options and to prepare the way for further primary legislation in the full knowledge that there is no question of being able to get it ready for

inclusion in the present Bill.

Meanwhile, accepting the royal commission's conclusion that the transition to an independent prosecution service would need to be a gradual process, the Government has taken additional steps in the direction indicated by the royal commission. The Attorney General has provided guidelines on criteria governing prosecution, which are now available for the use of chief constables; and the Home Office is quickening the admittedly long drawn-out process of establishing prosecution solicitors' departments in all police forces, a step which the royal commission regarded as important in moving steadily to a nationwide and statutory service.

In assessing fairly the broad balance of the policy of which this Bill forms one part it is necessary not to discount the above considerations.

Yours faithfully, CYRIL PHILIPS, Chairman, Police Complaints Board, Waterloo Bridge House, Waterloo Road, SE1. April 29.

Outside the system

From Mr G. E. Hester

effectiveness.

Sir, Your informed leading article, 'Schools outside the system" (April 23), rightly points out that in England and Wales "the religious compromise set out in the 1944 Education Act has been remarkably

Perhaps, however, you are right to use the past tense since the voluntary schools seem to be under attack from the left and the right. The left wants to scrap them on ideological grounds, and if it can threaten Roman Catholic schools in Liverpool, then nowhere else can feel safe. The right claims to support voluntary schools, but in practice makes cuts in the name of cost-

Your leading article observes that "the Roman Catholic teachers" colleges . . . are among the country's best ". Yet one of them, De La Salle. near Manchester, is under threat of closure. The Catholic authorities have had to go to the courts to try to obtain traditional consultation and procedures.

The system of voluntary schools that your leading article mentions is indeed a fine system, but it is under threat and those who value it must be vigilant.

G. E. HESTER, Headmaster, St Joseph's RC School, Bolton, Lancashire April 23.

Rewarding volunteers Need for the BBC

From Mr J. Fleming

Sir, In view of the proposed voluntary scheme to give youngsters experience in the armed services, is it not appropriate to consider wider provision for unemployed people wishing to take part in other voluntary schemes?

At present a youngster wishing to do voluntary work must forfeit his unemployment benefit since he is technically "unavailable for work". However, such work, for example with handicapped or elderly people, is often found to be highly rewarding, providing the youngster with confidence and self-respect, not to mention a sense of responsibility; surely true "character-building"

Youngsters should be encouraged to get involved with all kinds of voluntary projects, not penalised financially for showing such initiative. To say they are making themselves unavailable for work is both cruel and unrealistic. The

work. Yours faithfully.

alternative of enforced idleness is far more likely to keep people unfit for

J. FLEMING, 279 Upton Lane, Forest Gate, E7. April 15.

Desirable residence

From Sir Robin Hooper

Sir, With respect to Mr Noakes (April 23) the present British Embassy and former Consulate General at Tunis was not, as is often suggested, presented to Queen Victoria. It was placed - in 1858, not 1885 - at the disposal of the then Consul General, Sir Richard Wood; and the arrangements under which we hold it, not finally codified till 1929, still provide that the property continues in the ownership of the Tunisian state and that if your foreign staff were to have their way and we were to move to accommodation more suited to our present

revert to Tunisia. We acquired our railway station

When Tunisia became independent we could not, unfortunately,

May I be forgiven for adding that during my tenure, the field next door, which ran right up to the embassy walls, came up for sale. Development would have been a disaster, and I asked if I might buy it. Permission, and the money, were forthcoming within the week. Those

Questions over aid to Third World

From Professor Walter Elkan

· ·

Sir, Professors Bauer and Yamey (feature, April 11) do not need me to defend them from the barrage of hostile comment that their excellent and courageous article has elicited. But it may have escaped readers' notice that most of the letters cited examples of excellent help provided by voluntary agencies, like the Save the Children Fund, Oxfam and VSO (Voluntary Service Overseas) as a rebuttal of Bauer and Yamey's central point, which was that official aid cannot significantly promote

Third World developme It is true that in a short article packed with challenging ideas they did not make that distinction clear, but I would be surprised if they were not perfectly prepared to concede the usefulness of much of the work, done on a shoestring, by the voluntary agencies and to applaud

it, as I do.

Their scepticism was directed at official aid, provided by governments and multilateral organizations like the UN, the European Development Fund and the World Bank, only a minute fraction of which is channelled through the voluntary organizations and most of which goes directly to governments of the recipient countries

This scepticism, which Bauer and Yamey were the first to voice, decades ago, is now very widely shared, but few have the courage to say so in public or to acknowledge the debt they owe, especially to Professor Bauer, for helping to change the climate of opinion over

the years. Frank Judd, in his letter of April 25, says: "Aid is effective if channelled in the right direction". Who could disagree? The problem is that a large part (not all) of official aid has not been and that the obstacles to a proper use of aid seem always to clude the donors.

Yours faithfully. WALTER ELKAN. Brunel University, Department of Economics, Uxbridge, Middlesex. April 26.

From the Prime Minister of Belize Sir, Foreign aid, in our economic cooperation programmes, has helped the development of Belize, contrary to the thesis of Professors Bauer and Yamey in their article, Why we should close our purse to the Third World", appearing in The Times of April 11.

Minister Prime Margaret Thatcher deserves to be encouraged to continue doing what is right and

Belmopan, the small new capital of Belize, was built in cooperation with the United Kingdom, part grant, part loan. The poor benefited from employment and learnt better PO Box 30125, Nairobi, Kenya.

building techniques to apply to future development. The Belmopan Hospital and schools serve the poor

of the area. The poor have benefited also by roads and bridges, built in part with aid funds. They help open markets to poor farmers.

A modern water and sewerage system in Belize City, in cooperation with Canada, the European Economic Community, the United States of America, added to our limited resources have been invested in schools, hospitals, houses and other infragructure for the benefit of our people, most of whom are among the poor.

This praiseworthy cooperation has done much for the poor of Belize, whose government is committed to improving the material standards of life. Sincerely.

GEORGE PRICE, Office of the Prime Minister. Belmopan, Cayo District, Belize,

Central America. From Mr A. Michael Wood Sir, The arguments put forward by

Professors Peter Bauer and Basil Yamey in your issue of April 11 concerning the inefficacy of aid are valuable in making us rethink aid in relation to development. I believe that this view, even if somewhat overstated and unduly cynical, is a healthier one than that propounded in the two Brandt reports.

For those of us working in developing countries the misuse of official aid is a commonplace occurrence and bas led to a general disillusionment in the whole process. The fault, sometimes, is with the donor who has not monitored the grants and loans sufficiently tightly to ensure that the money is spent as it was intended. It is evident now, however, that this lesson has been learnt and that the accountability and administration of aid is being better handled than

previously.

The voluntary agencies who do work among the poorer sections of the community in developing countries maintain that, in large measure, aid given through them goes further and to the people it was intended to help. There are, of. course, mistakes and failures but the plight of the poor in the developing world would be far worse if it wasn't for the work of countiess agencies who are attempting to make life for these people more tolerable until such time as they are able to stand on their own feet.

Yours faithfully, A. MICHAEL WOOD, Director General, African Medical and Research Foundation (AMREF).

CND and propaganda

From Mr P. G. Hawkins Sir, In your leading article (April 21) you observed that "a wide variety of people are clearly prepared to join the CND because they wish for onesided nuclear disarmament..." suspect that many people may also be persuaded by current CND appeals into joining without even realising that one-sided nuclear disarmament is, and always has been, a fundamental tenet of CND

policy. CND leaflets currently being distributed to Oxford residents make no mention of unilateral nuclear disarmament and ignore the deterrent purpose of the West's nuclear weapons. They base their appeal for membership and funds exclusively on fear of consequences

the United Kingdom.
The message they put across is:

Cruise and Trident will make you a target for nuclear attack and will be ineffective to defend you in the nuclear war which will follow - so help to ensure that they are not installed by joining CND and completing the attached banker's order. This is the only way to ensure that you and your children survive". This appeal to the emotions is at

least misleading, if not downright deceitful. Today's consumer protec-tion legislation ensures that no advertiser of goods or services could get away with such misrepresen-tation. Why should organizations such as CND be able to do so? Yours faithfully,

P. G. HAWKINS, 25 Upland Park Road, Oxford,

declared that if no agreement is

Alliance and cruise

From Lord Mayhew Sir. Mr Geoffrey Smith (feature, April 26) forecasts with reasonable

accuracy some of the policies likely to be adopted by the Liberal-Social Democratic Alliance in the field of defence. But on cruise missiles he misses the point.

A Soviet-American agreement at Geneva will not be reached without concessions on both sides; and in their negotiating postures both sides have to take serious account of Britain's willingness or unwilling-

ness to deploy.

The British Government has

reached it will deploy: this relieves the Americans from any British pressure to make concessions. The Labour Party has declared that it will not deploy in any circumstances: this relieves the Russians from any British pressure to make concessions. But if we declare, as the Alliance is likely to recommend, that we will deploy or not deploy according to the negotiating pos-itions of the two sides, we shall be bringing powerful pressure on both of them to agree. Yours faithfully,

Democratic monarchies Flight of fancy

From Sir Jain Moncreiffe of that Ilk Sir. King Umberto's recent death in exile reminds us that the majority of genuine democracies in Europe safely west of the iron curtain, whose people can choose their fate, are constitutional monarchies: the three Scandinavian monarchies, the three Benelux monarchies, ourselves and renascent Spain, not to mention happy Liechtenstein and Monaco.

they asked politely. "How is Elizabeth?" and were thrilled to see the Queen's portrait on our coins. Yet when I telephoned soon afterwards to the West German Embassy in London to ask their President's name, the answer was: "Sorry, I'll find out." It turned out to be Scheel. And how many Africans or Americans who know our splendid Queen could name the worthy Presidents of Italy and

Why, then, are the Italians so afraid of true democracy that neither the late King Umberto nor his heirs are allowed to live (or even die) in Italy in case, after getting to know them, the Italian people were to choose to exercise what should be their democratic right to re-elect them to be their constitutional monarchs if it were to become the

were to be asked today by a parish priest in Euston whether the subjective motivation of the he could have permission to become general secretary of the Campaign for Nuclear Disarma-ment for the period of the coming general election campaign, he would certainly say

no.

If nuclear weapons were about to be invented, and the Pope was asked whether world peace should in future be preserved by a balance of terror, he too would say no. If any Roman Catholic bishop was asked by a layman for his approval for a proposed marriage in a register office to a divorced woman, he would also

Yet Monsignor Bruce Kent is informed that he may go on doing what he is already doing the Pope tells the United Nations that "deterrence is ment and how do we get there morally acceptable"; and a immediately?" layman already married to a instructed to walk out on her. In each case the status quo is judged to be less than ideal, but it is not the current way of handling such issues to insist

that they must be made ideal is intolerable. sion of the theory and practice who have gained a kind of of moral philosophy in the perverse enjoyment at their Roman Catholic Church, a dose church's intransigent defiance of realism in a system which has of common sense, have recently sometimes been extremely been unsettled to find common

Whitely. A guard of honour was found from The Queen's Own Hussars and Captain Michael Bampfylde was best man. A reception was held at 30 Pavilion Road and the honeymoon will be spent in Greece. Sometimes it is expressed as

The Roman Catholic Church the difference between "moral" realistic; or homosexual fidelity and "pastoral" theology, which has taken over from the older iscuity. distinction between the "public" and the "private"

forum, as it was called. In that more traditional way of way more closely geared to the needs of the confession box, it was deemed permissible to Thus if Cardinal Basil Hume reduce sins from the category of "mortal" to a lesser category if

sinner provided grounds for doing so. Freud although not the church's favourite psychiatrist, was influential enough to damage the church's confidence that it knew what it was dealing with in trying to put

resposibility. It is commonly said that "there are no mortal sins any more", But the most recent shift more basic than that, and applies not merely to issues of personal morality, nor necess-arily to issues where morality is at stake at all. It is a shift towards the idea that the best should not be made the enemy

It leads to the conclusion,

divorcee would certainly not be occasionally, that a situation which is in theory wrong because it falls far short of the ideal, is in fact left alone, as the best that can be done.

It does not, for instance, tell a homosexual Roman Catholic immediately, and anything else that his only hope of salvation is immediate and complete This is an important exten-celibacy. And Roman Catholics

right direction that is politically place at once.

preferred to homosexual prom-

The pendulum has swung over to the point where "moral" theology, defined as concerned with ideals, is out of fashion, and pastoral theology, the art of the possible, dominates the

Non-Roman Catholic theology, which was never really convinced of the existence of abstract moral absolutes, has therefore never felt the force of that dichotomy. But absolutes do seem to play a role, even in the most pragmatic and pseudo-utilitarian Roman Chatholic schools, suggesting that they provide a sense of moral bearings, rescuing the system from complete relativism and situation ethics.

Anglican moral theology, on the other hand, has been able to offer little beyond marginal notes on contemporary secular

In practice, the "moral theology" approach, preaching the ideal, is still encountered in pastoral guidance prior to a lecision or action. But the more widely spread becomes the knowledge that a more tolerant "pastoral" theology is waiting to take over after the decision or action, the weaker is the influence of the ideal,

That has a parallel in problems which are not ethical at all, but where a similar thought process seems to be at work. The notion of an "ideal" relationship between church and state, for instance, or between the church and politics, is gradually giving way to a less systematic and more pragmatic method,

The image of the church militant as a fortress is giving way to the image of the people rigid. It is not yet quite official, sense Catholicized, with of God as a pilgrimage: and but it can be observed working bishops supporting a 20-week in practice, from the Pope cut-off for legal abortion rather downwards.

Catholicized, with of God as a pilgrimage: and while fortresses can be run with military tidiness, pilgrimages downwards.

Cash boost for **Brighton** pier

Restoration of the Victorian West Pier at Brighton may start as early as Pier at prignton may start as early as next year (Our Environment Correspondent writes). Brighton Borough Council has agreed to pay half of the £25,000 needed to finance a study of the project.

The Brighton West Pier Trust give a warning early this month that refusal of support from the council could end hope of restoring the crumbling and evocative monu-

ment to generations of Victorian seaside holidays.

Mr John Lloyd, secretary of the trust, said yesterday: "We are much more confident now. I hope that we can start actual work next year, but completion may take many years." The pier has separate official listings as a dangerous structure and a historic building of the highest importance.

OBITUARY

GEORGE BALANCHINE

Major force in 20th century ballet

George Balanchine, one of the greatest of choreographers and the founder of the New York City Ballet, died in New York on April 30 at the age of The supreme survivor of the Imperial Russian ballet's traditions, he nevertheless called himself a Yankee and spent most of his career in Manhattan. Aristocratic in manner he was also classical ballet's greatest popularizer, and more of

his ballets are regularly danced throughout the world than those of any other choreographer in ballet's history. One factor common to all his work was his extraordinary respect for music and his understanding of it coupled with a catholic enjoyment of many different musical styles. Balanchine's contribution to

ballet in the twentieth century can be likened only to that of Marius Petipa in the nineteenth. Both men carried the pure classical tradition from the land of their birth to a new home where it took new root. Each of them polished his own in-terpretation of the classical style to the point where it became accepted as a standard against which others were judged. Balanchine's fate was happier than Petipa's, however, in spite of the challenge of younger rivals, he remained the acknowledged master until his

death. Georgi Melitonovich Balanchivadeze was born in St. Petersburg on January 22, 1904, the son of a Georgian folk musician. His family wanted a military or naval career for him, but he auditioned for the ballet school of the Imperial Theatres, and was accepted.

While still at the school, aged about 16, he made his first choreography, a love duet to Anton Rubinstein's La Nuit which was thought daringly

erotic. Even after graduating in 1921, young Balanchivadze's ambition was actually to become a composer, and he enrolled at the Petrograd Conservatory of Music. However, he every walk decided that he he eventually decided that he had not the talent for composition and chose, luckily for the whole future of ballet to concentrate on that art.

Balanchivadze got together several friends to present some Evenings of the Young Ballet in 1922-3, featuring largely his own choreography to music by Chopin, Ravel, Scriabin and himself among others. He staged Cocteau's and Milhaud's Le Boeuf sur le Toit and a minne to Blok's poem The Twelve. But soon the theatre authorities forbade the dancers to take part

in such unauthorized activities. That perhaps encouraged Balanchivadze to accept an invitation in summer 1924, from the baritone Vladimir riev, who had obtained permission to arrange a foreign tour for a group of singers and dancers. On arriving in Berlin, orders followed them to return home. The conductor and other singers obeyed, Dimitriev and the dancers remained.

Under the title of the Soviet State Dancers, the group danced in the Rhineland resorts, then at the Empire, London, on a variety bill. During that engagement. Diaghilev invited them to Paris to audition for his Russian Ballet and engaged them. Diaghilev simplified his new recruit's name for western audiences, to Balanchine. He and his colleagues were engaged

as dancers, but Balanchine was soon put to the test of making opera-ballets. When Bronislava Nijinska left in 1925, Balanchine at 21 became Diaghilev's ballet-master and chorcogra-

During the four years remain-ing before Diaghilev's death and ing before Diaghilev's death and the company's dissolution, Balanchine staged 10 ballers, two of them still performed today, Apollo (1928) and The Prodigal Son (1929).

Balanchine, Lydia Lopokova and Anton Dolin were filming a

ballet sequence by Balanchine for the first English talking film, Dark Red Roses, when they heard of Diaghilev's death. Balanchine was offered a contract at the Paris Opia but fell seriously ill with pneumonia and pleurisy soon after beginning rehearsals. When recovered, he staged dances for the Cochran Revue of 1930 at the London Pavilion, then spent some months in Copenhagen staging six works for the Royal Danish Ballet before returning to London to mount returning to London to mount dances at the Coliseum for Sir Oswald Stoll.

Work called him away with the founding in 1932 of Les Ballets Russes de Monte-Carlo. He made three works for their opening season, including the successful comedy La Concurrence and the mysteriously poetic Cotillon. Next, with financial backing from Edward James, Balanchine founded Les Ballets 1933. The company endured only one season in Paris and one in London, yet it gave the premiere of the Brecht-Weill Seven Deadly Sins and numbered Berard, Derain and become New York City Ballet. Tchelichev among its designers.

It also confirmed the young American writer Lincoln Kirstein in his determination to company and reviving many invite the choreographer to others, found a classical ballet company A few examples must illusin America. Seeing no prospects in Europe Balanchine accepted. In 1934, Balanchine opened pure classic display of the the School of American Ballet on Madison Avenue, New the sinewy toughness of York. In the summer of that Stravinsky's Agon or Symphony year his students danced Serenia, the the summer of that opened in Three Movements, the ade, his first creation for them, romanticism of La Valse to the and in 1935 the American Ballet gave its first New York season: mystery of Iresiana to the fun two weeks at the Adelphi of Square Dance, the showbiz

A subsequent tour collapsed in financial chaos, but the Balanchine lacked at least a few company accepted an invitation to become the resident ballet of However, it was the care be the Metropolitan Opera. The devoted to raising levels of relationship was not a happy dance education all over one, but it lasted three seasons. America, that eventually gave. and enabled Balanchine to present two memorable productions: a staging of Gluck's Orpheus, with the singers offstage and action presented entirely by dancers in Tcheli-

Balanchine Ballets.

including the premiere of Card In 1938 the contract with the Met ended, and so did the American Ballet. But the School continued. A teacher of marked individual views, Balanchine selected teachers with care, and

repeatedly chose its best graduares to become his dancers. For a time, Balanchine busied himself with Broadway shows and Hollywood musicals and during 1941 the American Ballet was temporarily revived for a goodwill tour of Latin America: Balanchine creating two enduring classic ballets for the occassion, Concerto barocco and Ballet Imperial.

Again he found himself without a company of his own but made works for several other troupes, notably Danses concertantes (1944) and Night Shadow (1946) for Ballet Russe de Monte-Carlo, Waltz Academy (1944) and Theme and Variations (1947) for Ballet Theater and Palais de Cristal

(better known now as Symphony in C) for the Paris Opera. Meanwhile Kirstein, back from war service, had conceived the idea of presenting perform ances of new ballets to an audience exclusively of subscribers. Ballet Society, as it was called, gave its first programme in November 1946 in the impropitious surroundings of the Central High School of Needle Trades, but the two works given aroused enthusiasm. One was a danced version of Ravel's The Spell-bound Child, the other was the first distinct manifestation of the distorted, inverted but still lucid classical style that Balanchine evolved for the choreographic treatment of modern music, in this instance. The Four Temperaments, a score which Balanchine had commissioned from Hinde-

After two years of precarious existence, Ballet Society had mounted many more works by Balanchine and others, including another notable treatment of the Orpheus legend, with music by Stravinsky. The premiere was given at New York City Centre and after-wards the chairman of ha finance committee. Morton Baum, invited Balanchine and

From that time, Balanchine devoted his efforts to creating a hundred ballets for the

THE TIMES MONDAY MAY 2 1983

An off-colour Liverpool rattle a few skeletons at White Hart Lane

Ghostly echoes of the past haunted four London buildings last week. The apparition of the Chester report returned at the Cafe Royal Hungary's insubstantial spirit re-appeared at Wembley, the television

company's case was reviewed at the Great Western Hotel and Liverpool, lisguised as pale shadows, re-laimed the title at White Hart Glimpses of all of them, visions of the future as well, were evident at Tottenham Hotspur's ground on Saturday. In numerical order Bob the Liverpool's manager, ented on the first, Hoddle had something to say about the second, ITV's presented one side of the third and Keith Burkinshaw spoke on behalf of many about the fourth. The main recommendation of Sir Norman Chester's committee was that the first division should be inai the first division should be reduced. The club chairmen rejected it, Paisley supports it, "We should cut out the Mickey Mouse games," he said. Since Liverpool beat Tottenham in the Charity Shield in August to win the first of three trophies, the two sides have competed in a total of 107 matches. Last season Tottenham's are-

Last season Tottenham's ambitions were damaged by fixture congestion and were realised only in their sisty-sixth and last outing. This season Liverpool opened up such a large gap at the top that they were never in danger of losing their hold on the championship but does seem ficant that near the end of the lengthy campaign, they have not won any of their last four games.

Mental and physical farigue rather than relaxation might explain such a relapse, almost unprecedented in Liverpool's recent history On Seturday they stayed history. On Saturday they started unusually defensively often seeking comfort in the arms of their control of the arms of men goalkeeper ("are you Arsenal in disguise?" the crowd saked) and looked even more unusually ragged by the end. After a display so devoid

ampagne.
Their party was spoilt by Tottenham in general and by Hoddle in particular, It was his first

Sanity plea from centre smile from of arena

Perhaps it was not an ideal time or George Kerr, the Rotherham United manager, to speak against club firmly anchored in twenty-first riace, one point more or one point less for a win would have made no

less for a wind which tave make no difference to their plight. When the waves are lapping over your head there is little point in complaining about insufficient lifeboats. It was still more nonsensical that kern's thoughts opposed one of the few areas of interest left to us this season. The sight of 11 clubs tighting to the death at the bottom of the second division is providing. us with good entertainment, Roman style. But despite all this, you could not ignore Kerr's touching plea for sanny from the centre of the

He reminded us of the emotional strain caused by those desperately exciting matches, the unhappiness and damage it was causing managers, players, their vives and lamilies. Too many, he thought were affected by the long tentacles of the three-point system. As a man who had just experienced 15 months on the dole, his feelings

Acre more acute than most. He resisted the temperation to answer questions like "What went uroag", probably because it would have taken until kick-off today to reply. "We'll talk about that later," he said. "Right now I've got to get the players to work, prepared to bloody die."

With a dash more luck Rotherham, more controlled and direct, could have seen the brighter side of the

First division

Bobby Robson's present midfield preference favours industrious consentatives such as Lee and Matheut Against the likes of Greece

Manual. Against the likes of Greece and. Hungary, who are easily unsatiled, such work as rewarded. But against such as the soperior Danes (and especially if England reach next summer's European Championship finals) he will need a player with the vision, skill and accuracy to inhinge doors that are uping closed.

Hoddle has those requirements in abundance but, as he admits, only with the benefit of an uninterrupted with the beneam of an immerrupted runs in the national side, like those enjoyed by both Lee and Mabburt, will be prove his undentable ability. He should be given that opportunity in the forthcoming fixams against Northern Ireland, Scotland and, Tottenham's close-season plans permitting in Australia.

permitting in Australia.

Those who watched ITV's coverage of the game on Saturday night would not have seen all of his contribution. The only notable events during a drab first half were the bookings of Roberts and Johnston for heree-challenges and of Lawrenson for a trip on Brazil. Viewers were given a distorted picture. The tactical sparring may not be "good television" but, without it, Tottenham could not have delivered their two glorious.

have derivered their two gloribus, knockout blows. Live coverage, a likely possibility next season, would have illustrated how they had probed Liverpool's three centre halves without success until a fortunate rebound in the fiftheth minute put Hoddle away where the danger lay, on the fisher. If Hoddle had sat down for a few minutes by the byline and drawn on graph paper the parabola of a cross

A rare Saunders

Although arguments raged long after this match about the two selecting decisions which led to Birmingham City's goals in the eighty-than and eighty-sixth minutes, only the most partisan could deay that City were much the better side and richly deserved the three points which could yet keep them in the first division than here.

Whatever the first outcome of Whatever the final outcome of this season, it is dear that Birmingham have belatedly got their act together, while Sunderland's is follow apart. The late goals City scored introduct Blake, from a penalty and Harford, with a superb header from Denais's free kick, were just reward for their method and persistence.

rwentieth minute to a headed goal from West after some notable work by James, Sundedand's Welsh international winger. But the setback seemed only to strengthen their resolve. The tail, brave Harford led their line intelligently and Sunderland were never able to subdue him.

Early in the second half West and Rowell missed reasonable chances to pan the issue beyond deabt before to pan the issue beyond deabt before City reinforced their grip on the game. They were awarded a penalty when Minnro brought down Hopkins, and Blake scored from the game. They were awarded a penalty when Minnro brought down Hopkins, and Blake scored from the game. They were above the from Atkins, who bad defended superbly, and from Dennis's free kick, Harford rose above the Sunderland defenders to head the ball home.

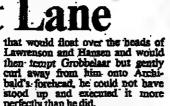

City's usually polor-faced manager, Ron Sannders, was beaming with delight after the match, despite suffering from a severe migraine. The fielded 31 or 32 players this season, but now I'm convinced I've get a team together," he said. "When I came to 'City I transferred 25 players, brought 12 in and reduced the playing staff from 37 to 23. We've saved £5,600 a week in runting expenses and we're now on the right line, whether in the first or second division.

**Subcera are a Purshoe's Weinsted 1 A striking difference between the two sides was the incisiveness with a which they pursued their opportunities. Forest certainly did provide Williams, Forest certainly did provide Williams, in the City goal, with an excessive workload, but when they spotted their chance between they spotted their chance between they spotted their chance between the wind they pursued their opportunities. Forest certainly did provide Williams, in the City goal, with an excessive workload, but when they spotted their chance in with an excessive workload, but when they spotted their chance between these strucks swifty.

Both Forest's goals were splendidy conceived and taken with Robertson in midfield for much of the time, having a foot in both of them. He supplied Hodge who sent Davenport along the right flank for a centre which Wallace swept 10 minutes. Then, on the hour, Robertson rode a chursty ackle and found Davenport, who adveitly made room to curl a low shot across and beyond Williams.

City's response was to push for a

Second division .:

he had never been away. With a second a few minutes later. He majesty that is univalled in Britain, he inspired his colleagues, who challenge to prod a pass through to blossomed alongside him after the intervit.

resisted Lawrenson's impending challenge to prod a pass through to Archibald, sprinting clear through the middle. O'Reilly, after more creativity from Hoddle, Archibald and Hoddle himself were all later denied and Mabbutt was twice only narrowly off target.

Daiglish, with an individual effort ten minutes from time, produced the lone response as Liverpool went

the lone response as Livernool went down looking anything but cham-"You dream about beating them.
5-0 or 5-0." Burkinshaw said, "but it
never happens. I said in October
that they would win the League
because over 42 matches they are so

clearly cut above everybody else in the first division. I just hope somebody gives them a better run next season.

"It is Liverpool's attitude that is so good," he added, "and that is what matters for the rest of us now." He had the UEFA Cup in mind. If Manchester United win the FA Cup, Tottenham need seven points from their remaining four games to be sine of a place with Watford, Aston Villa and Nottingham Forest, the three sides left on Liverpool's fixture list carriously enough.

· Tottenham's visit to one of their rivals, Southampton, tomorrow is important but some issues may be important but some issues may be decided today. Wolverhampton Wanderers, for instance, will be certain of going up to the first division if they win at Chariton Athletic. They will clinch promotion anyway if Fulham lose at Queen's Park Rangers and Leicester City at Elland Road.

Tension mounts for City

not the best stimulant to confidence

Manchester City ... Nottingham Forest.....

Birminghem City... Like spring, Manchester City blossomed a little late, By the time they did, Nottingham Forest were two goals up and City felt the antium of 17 years in the first division creeping up on them.

The disappointments and tensions of a season, which began so promisingly and which now hangs pitestiously on the outnome of matches against two fellow strog-

subdue him. Early in the second half West and

With a dash more luck Rotherham, more controlled and direct, could have seen the brighter side of the wicked three-point system.

The only goal they scored, by Arnott in the fourteenth infante, was not particularly well worked and owed a lot to the timidity of the Chelsea defenders, who all played as though they were on 29 penalty points. Francis, the Chelsea goal-keeper, and a defender blocked shots by Arnott and McBride before Arnott hit the target. Kerr's hopes of a rare kill, were runed by Walker's outstretched toe to a Chivers free kick.

Sunderland defenders to bead the ball home.

City's usually poker-faced manager. Ron. Saunders, was beaming with delight after the match, despite suffering from 32 players this season, but now I'm continued I've got ateam together," he said. "When I came to City 14 months ago, they were a joke. I transferred I'm playing staff from 37 to 23 We've saved £5,600 a week in running expenses and we're now on the right line, whether in the first or second division."

Foster falls into a Wembley trap

the worst of both worlds. The trap door to the second division opened wider as a result of their defeat against Notis County and a first-half booking for Steve Foster means that they will probably be without their captain and perhaps their most inducatial player for the FA Cup

The number of penalty points accumulated by Foster normally make a two-match suspension inevitable, and Brighton's appeal to FA for leniency seems crtain to What happened to Foster on Saturday was an example of what Sir Harold Wilson used to call rough justice. Foster was unlucky to have his name taken in the furst place but in the end could not have complained if he had been sent off. complained if he had been sent off.

Another Wilson, Norman, the match referre, booked Foster for the relatively bannless offences of speaking out of turn, but in the second half failed to send him offer the most blaum handling offence. Foster's foul prevented a clear goalscoring opportunity, yet Mr Wilson's only response was to award County a free kick.

One suspected that Mr Wilson regretted his decision to book Foster carlier and that this was his way, of

earlier and that this was his way of restoring the balance. However, two wrongs do not make a right. As it happened Mr Wilson did Foster no yours by allowing him to stay on

Beginning

searching passes to the wines and it seemed that it would be only a matter of time before the speed of

The deadlock, however, was broken by Rugby two minutes into the second half. After Owen's mishit shot, the ball spun into the path of Crawley, who to the delight of his personal coachload of family and friends in the crowd prodded the friends in the crowd prodded the ball past Coldicott from 10 yards.

For the rest of the match Rugby ran, harassed and tackled to such effect that Halesowen appeared increasingly to lose faith in their ability to break down a well oreanized defence HALESOWEN TOWN P. because banishment would have led to an automatic one-match ban, thus enabling him to play against Manchester United at Wembley in

three weeks' time. Mr Wilson appears to be one of the growing number of referees who see evil where there is none. Some of his decisions were baffling. As well as Foster, he booked Goodwin and McNab for fouls and Christie for disease was there was nothing

The only thing that Brighton have The only thing that Brighton have going for them is the infectious optimism of their manager, Jimmy Melia. But not even Melia can paper over the many cracks in his team. Brighton's troubles started before the kick-off when Case and Robinson were ruled out through injury and during the game they seemed to be chinking more about Wembley than first division survival. Caunity's greater determination gave them the three points which virtually ensured their own first division future.

Kilcine's unstoppable shot

Kilcline's unstoppable shot brought the winner with seven minutes remaining, but the real thorn in Brighton's fiesh was the County destuder, Hunt, whose swift interventions denied Smith and Comor-certain goals.

NOTTS COUNTY: If Avanovic; T Berjamin, Hurs, M Goodwist tand D Clarke, B Kicken Bicherds. Crisectos, T Christos, I McCalo A Lattines, N Worthington, British County of the County of the

not the best stimulant to confidence to take on a competent side such as Nomingham Forest.

Paradoxically, it was in the last half-flour or so, when prospects were gloomiest, that Manchester City showed most spirit, won a string of corner kicks and rekindled their hopes with a well-worked goal.

However, Forest were far too well organized for them, which is not to say that City did not out manoeuver them occasionally. Headers by Hartford and McDonald were not too far away in the first half and the best chance of all in that period fell to Kinsey, But Kinsey's balance was wrong as he shot and the ball flew high over the bar.

A striking difference between the two sides was the incisiveness with which they pursued their oppor-

months ago, VS Rugby hope to make their Wembley success a platform from which to continue their remarkable progress.

Hawesowen, also from the West Midlands League, have bearen Rugby three times this season and at Wembley they looked clearly the more skilful side. In the first half Hazlewood and Woodhouse stretched the Rugby defence with searching passes to the wines and it someoners to Capuiclow to create their venture of paying for their searching passes to the wines and it someoners to Capuiclow to create supporters to Cappielow to create the right atmosphere, United are in the mood to take the title.

Confident and professional, they showed no signs of nerves with a sweeping victory over Morton, with well-engineered goals from Dodds (2), Narey and Milne. However, as the other two contenders also won easily and without revealing any more concern about pressure than United, it is reasonable to assume Aberdeen and Celtic will also take full points from their remaining games. It becomes more likely that goal difference will settle this

goal difference will settle this exciting race.

Celtic regained lost form by beating Kilmarnock 5-0 at Rughy Park; Aberdeen were never threatened as they defeated Dundee 2-0

John Grieg, the Rangers manager, has made six of his team available for transfer. They include the Scottish internationals Derek Johnstone and Jim Stewart.

Caution the keyword as Davis and Thorburn head for a marathon session

If the present work rate in the 35-frame World professional socoker final at the Crucible Theatre, Sheffield, is any guide, the tournament, sponsored by Embassy, could well overrun itself into the early hours of tomorrow morning. Neither Steve Davis nor Chiff ther Steve Davis nor

Neither Steve Davis nor Chiff Thorburn, however, were doing much overnanning yesterday, the first four frames having taken two hours with the scores standing at 2-2. Later after much speculation and manoeuvring Davis led 6-2.

The packed house was witnessing yet another act in the drama which began a fortnight ago and many outstanding performances have been given since then, not least by been given since then, not least by Davis and by Thorburn. By the time the final curtain falls a new dimension to the event will have

dimension to the event win have been acquired: whoever wins will become the first man to take the title twice in the seven years of the tormannent at the Crucible, not to mention the £30,000 in prize

players was understandable and acceptable. At least the first frame began in lighter vein when Thorburn's cueing was interrupted by a baritone voice from one of the dressing rooms, possibly rehearsing for some future presentation. "It would not be too bad", Thorburn said "if only the man could sing." Davis won the first frame with useful breaks, none of which exceeded 30, in the next frame it was Thorburn's turn to consolidate with breaks of 34 and a 49 clearance.

3.0 (3.3) 2,000 GUNEAS STAKES (Group 1: 8-y-0: 273,462; 1m)

In finishing fifth it could be said that Gorytus ran as well in the Guinneas as St Paddy did in 1960 before he went on to win the Derby. But when the crunch came on Saturday nothing could match Lomond's classic burst of speed, although Tolo-meo did well to overcome an indifferent rum and stage a late rally that took him past Kuwait Tower and Muscatite into

Tolomeo thus became the sixth horse that Luca Cumani has trained to be placed in a classic. A win sill cludes him. Tolomeo is unlikely to run before the Derby, while Musca-tite will probably miss the Epsom classic and wait for the Prince of Wales Stakes at Royal Ascot instead.

second place.

"Not a bad second string to have," was Bill O'Gorman's comment after watching On Stage win the Palace House Stakes. Besides being the understatement of the season that remark was also a handsome compliment to the stable's first string, Brondesbury, who is still in the wings waiting for better

By finishing second to On Stage under 121b penalty Fear-less Lad also put himself right in contention for top spring honours this season. Fearless leaving On Stage free to tackle Prince Spy, an equally impress-ive winner at Newmarket the day before, in the Duke of York

Stakes at York.
Out of luck in the Guineas, Cecil at least had the satisfaction of seeing Precocious win the Philip Cornes Nickel Alloys Stakes decisively. That means and John Benstead winning Mighty Fly, on better terms that he has now run three two-four of the six races there. With than he did at Doneaster where year-olds this season and won the help of Pat Eddery, who is he finished fifth behind her.

Piencourt has often been considered ungennine, but he is a reformed the way victory in Kempton's Greenham Ballast Handicap on Saurds. Now the five-year-old is on schedule to take on the cream of the annu-handicappers in Royal Ascor's Wokingham Stakes on June 17.

John Danlop introduced a \$275,000 colt, Beach Palace, in the Window Park Maiden Stakes, but Shaikh Mohammed's colt finished last of the 24

Saturday's

Newmarket

"People have been very rude about Piencourt in the past, but these was are making them think again", the trainer Cliff Austin, said adding, "he is not ungenuine, the fact is that on occasions he has been slowly away from the stalls and as a result has had too much to do." runners. Victory went to Spanish Bold, a rare winner for Peter Gass. whose fortunes have been at a low ebb in recent seasons.

RUGBY UNION: AGGRESSION TACTICS DECIDE CUP FINALS

MOTOR RACING

Resigned to second

place, Tambay

is surprise winner

Few racepoers were able to gamble at Longchamp yesterday because of a dispute between the oncourse Tote operators and the governing body of the Parisian racepourse. That meant that few in the Ganay a year ago and narrowly failed to beat Glint of Gold in the Grand Prix at Saint-Cloud. Smaga puts his poor cloud. Smaga puts his poor performance on the Prix d'Harcourt cartier this mosth down to the heavy ground. For much of the race, Alain Legueux was pushing his mount along, but once he was asked to accelerate in the straight, Lancastian found excellent pace to take the lead in the furlong marker.

Cadoudal came with late true and only just fieled to take the \$40 000 betting booths were open and racing ran half-an-hour late throughout the afternoon, which did not upset the

crowd as they were allowed into the The Poule d'Essai des Pouliches rench 1,000 Guineas) went to the 2-1 chance, L'Attrayante, by half a night from Mystérieuse Etoile, with only just failed to take the £40,000 first prize. Bernard Sectly may possibly run Cadoudal in Coronaation. Cup at Epsom, and a disappointed Robert Collet goes for the Prix Dollar with Welsh Term.

George Duffield jumped off Noalcoholic after the Prix du Muguet and declared: "I was really stitched up." The six-year-old could manage only eighth place to the 35-1 xth, just half a length in front of the disappointing Goodbye Shelley, the after the race was found to be

Season by Steve Norton.
Olivier Douieb intends to run
'Attrayante in the Goffs Irish 1,000 ineas at The Curragh on May 21, this is also the race selected by Criquette Head for Maximova. L'Attrayante has raced well in topclass company all her career, and rivals yesterday probably because Alain Badel has learnt to tuck the filly away until the last possible

moment.

Mystérieuse Etoile took over the lead 300 yards from the post, but the filly could not hold the late challenge of L'Attrayante, who took the lead with half a furlong left to run. In previous races, L'Attrayante had twice been behind Mystérieuse Etoile, who was squeezed for room at the beginning of the straight and came back with a cut on her near hind.

Mystertieuse Etoile in the Prix Saint-Alary, which is also the chosen race for the honest Little Meadow, who once again ran on well in the final stages. John Lowe said of Goodbye Shelley: "She didn't run her race, but she does have two ways of running." Ian Balding will saddle Silverdip for the priv Spendingham at Chaptilly on

General Holme, who was found to be running a temperature resterday, missed the Prix Ganay, hich was won by the six-year-old ancastrian by a short head from adoudal. The well-backed favourite. Welsh Term was a remote third, having looked in trouble from good two furlongs out. Owned by Sir the 5-2 on favourite very wide or Michael Sobell and trained by the turns in search of better ground David Smaga, Lancastrian will not They made good headway in the race again until the Grand Prix de straight, but could not quite catch Saint-Cloud in early July.

Nomen trainers have been in the news recently. Ma Biche's triumph for Criquette Head in last week's 1.000 Guineas followed hard on the

heets of Jenny Pitman's victory with Corbiere in the Grand National

This afternoon at Havdock Park

Hurdle, can strike another blow by capturing the Tia Maria Hurdle with Very Promising.

Mrs Rimell's husband, Fred, won

the National Hunt season's richest handicap hundle prize with Royal Gaye and Gaye Chance and Very Promising has similar credentials to this pair. The five-year-old is only a novice but has sound claims to be

regarded as the season's best young hurdler. He showed a fine blend of

speed and stamina when beating Connaught River at Aintree and had

previously strode home in the Panama Cigar final at Chepstow after Deep Wealth's fatal fall at the third flight from home.

Of his rivals, Ekbalco continues

Of his rivals, Ekbalco continues in good heart as she showed when winning the Weish Champion hurdle at Chepstow and when arrowly defeated by Royal Vulcan at Avr. The Foodbroker and Avondale Princess are other horses in form at the right time. The

Chester latest

rain casualty

Tomorrows meeting at Chester has been abandened. The clerk of the course Charles Toller, said "The stewards inspected the course, and as a result of heavy evernight rain they abandened Tuesday's card. They will hold a farther inspection

at 11 am on Tuesday to assess prospects for the rest of the meeting and issue a futher statement after that."

There is also a serious doubt about tomorrow's Reducar card. There is an inspection at 11 am today and prospects are described as

only just failed to take the £40 000

stitched up. The six-year-old could manage only eighth place to the 35-1 shot Prospero after being badly interfered with down the hill and again in the straight. Montekin showed well with two furlongs left to run, but he faded into fifth position. The Lockinge Stakes at Newbury will be the next race for Nosleoblic.

in Germany on Saturday and his rider. Paul Cook, was warned for misuse of the whip. Cook had taken the 5-2 on favourite very wide on

Mercy Rimell: trainer of Ver

Foodbroker landed a nice touch for his connexions at Chehenham, and

Peter Haynes immediately announced that the Royal Doubton

had been the seven-year-old's objective all season. However, Very Promising still looks a banker bet.

The £12,000 Sporting Chronicle Spring Handicap is the feature race at Doncaster, Michael Stoute, the

trainer in form, runs Baly Dancer, who finished runner-up to Ivano in the Earl of Setton Stakes at Newmarket. Both Hills Pageant and Ridgefield are also well-funcied.

Very Promising to

follow a pattern

Bristol fashion has style

it has taken sustol a long time to win a John Player Cup Final, but it has been worth waiting for. In beating Leacester at Twickenham on Saturday by three goals, a try and two penalty goals to a goal, a try and four penalties, they showed all the style which has made them such a delightful team to watch for so long — outside the scrully confines of knock-out competition.

kneck-out competition.
Having hurdled this final barrier their belief in themselves should serve them well. They will go into

serve them well. They will go into the Cup next sesson as champions, bearing the flame which Lefester themselves have carried so long: that Cup rugby need not alter the essentials of any team; that it is still a game for all 15 players, that it can be played with freedom.

This was the best final in the short history of the knock-out competition, played before the best crowd of 33,000. Even when Bristol were 12 points ahead with only four minutes of proper time left, they knew they were not bome; it is to their lasting credit that they kept playing with the same commitment and skill, and ended the game fiercely stacking the Leicester line.

too. Their stand-off, Cusworth, who was part of their three-year Cup winning progress said: "This was the best final I've played in and we lost. What more is there to say about the game". There had been fear; beforehand that Bristol might freeze. It did not happen. Even in the first 20 minutes when Leicester dominated the masks and went into a 10-3 lead, Bristol stayed cool, made their own luck; and became stronger and more convincing as the second half were on.

They, incorpored the loss, with a

They ingnored the loss, with a damaged rib cartilage, of their experienced hooker Bogura after heli an hour. Their front row took the strain but it was their back row who strain but it was their back row who placed an indelible mark upon the proceedings. I doubt if Rafter has played many more effective games for Bristol; if ever a player deserved to take both county championship and Cup final in one season it is he. Sweeping across the line behind his threequarters he, Hesford and Pollecht, placed such pressure on the Leicester midfield that they could seldom create openings. seldom create openings.

Bristol's young midfield players not only obeyed Rafter's final instruction, which was to tackle, but they also had the nerve to run and there was immense satisfaction in Bristol's third try which sprang from Leicester's ball, manted back by Bristol and sent spinning down the

Curiously the Bristol midfield greatly resembled Leicester's - only the years intervened. Barnes and Cusworth, the little men who can kick and run and pass, Hogg and Dodge, the strong, steady players, support men, doing what needs to be done; Knibbs and Woodward, all be done, Knibbs and Woodward, all legs, the matchstick men capable of opening up any defence from broken play. Barnes in particular, had an outstanding game, both with his tactical kicking and his place kicking, which must have lifted Bristol's spirits at a time when they most needed it.

The fine touches in Leicester's they ran out of their own 22 in the first half. Barnwell came in from the first haif. Barnwell came in from the blind side wing outside his centres, juggled with the ball before controlling it but still had Evans free with 70 metres to go. A try was a possibility and indeed one was scored, but not by Leicester. The pass cannoned off Evans, Carr got his boot to it and the ball bounced mainto his hand for his second try. up into his hands for his second try.

Cusworth, in terms of place kicking, did everything that Hare might have done. He put Leicester into a six-point lead with two penaltics, the second arising in

tapped it, made an opening and threw a huge pass to Steve Redfern. threw a huge pass to Steve Rectern.

He was then late tackled and
while Richards sent Johnson over
the try-line referee Roger Quittenton awarded Leicester another
penalty, which Cusworth kicked.

Bristol might claim that Cusworth, having indicated the kick at
goal, did not genuinely take it,
though in the circumstances I think
he was right to play as he did and though in the circumstances I think he was right to play as he did and Mr Quittenton right to allow it. Equally several Bristol players relaxed when they heard the whistle, possibly leaving more room for Johnson to score. It is one of those

penalty from halfway, placed a diagonal kick for Carr who scored this first try and converted it.

Cusworth's third penalty was crased by Carr's second try and penalties by the respective stands-offs made it 16-16 at half-time.

move with Leicester's second try which Cusworth converted.
BRISTOL: I H Dugger; A J G Morley, R A Kribbs, S T Hoog, J F Carr, S Barnes, R M Hardeng; R J Doubledsy, K M Boghs (rap D J Palmer), A Steppard, P Poleoft, N J C Pomphrey, A H Troughton, M Rutter (captain), R Hestord.

Barnwell has operation

wing, has undergone an operation for the removal of a blood clot on the brain. He was led from the field after a head-ou collision with David Palmer, the Bristol replacement hooker, in the first half of the John Player Cun first half of the John

nooker, in the first batt of the John
Player Cup final on Saturday. He
was taken to the West Middlesex.
Hospital and later transferred to the

when, the crowd began a slow handclap, Goldsworthy attempted a drop goal. The handclap changed to cheers, more in relief than anything. casers, more in react to an anything, as the ball hit the upright, bounced ideally into the hands of Taylor, who ran unopposed for the try near the posts. Lewis converted. For the last quarter Pontypool maintained their unrelenting stranglehold.

PONTYPOOL: P Lewis; G Devids, L Feudener, L Jones, B Tsylor; M Goldsworthy, D Bishop; R Windsor (rept, M Crossley), S Jones, G Price, M Brown, J Peridre, M Jones, C Huish, J Squire teamstein

Clubs run up points in an end-of-season romp

scoring on the last day of the 15-aside rugby season on Saturday.
Glancing down the results at
breakfast you notice that Abertillery
accumulated 78 points against
Nuneaton, Nottingham 61 against
Cheltenham, Liverpool 81 against
Wilmslow, and Cardiff 60 against
Penzance-Newlyn.

There was nothing like that,
however, at Blundellsands, where
Waterloo, who are coming to the
end of a highly successful centenary
season — 32 victories, 969 points—
lost 10-6 to Gloucester, mainly
because Gloucester kicked their
penalties and Waterloo did not. Ridgefield are also well-fancied. Ridgefield best Hills Pageant. by eight lengths in the Rosbury Handicap at Kempton Park. Hills Pageant now meets his conqueror on 70s better terms and will also be much fitter. Paul Eddery rides Peter Walwyn's four-year-old who looks the main danger to Baly Dancer in a tricky handicap. Stome could well complete a double by also winning the Peleid Maiden Stakes with Afral.

have not beaten Gloricester for a year or two, Glouster because their own season has not given them much to sing about and they wanted to finish it at least in a major key.

Waterloo's try was scored and converted by Cotter, the wing, who took his points total for the season to 494. At Easter he scored 42 against Glasgow Academicals, which Waterloo believe to be a world record. Next Saturday Waterloo come to Twickenham for the Middlesex seven-a-side finals and two days later begin a four of Portugal.

46-9 at the end of 80 minutes, but in the heat of their efforts to reach 50 they took their eyes off the ball and let in Saracens for three tries in injury time. Coventry's chief try-scores were Buttimore (3) and Rossborough (2).

Steve Thomas, who has been re-elected captain for next season, kicked seven conversions out of eight. Coventry are banking on promising young players such as Mark Lakey (stand-off half) and Rossborough (2).

Steve Thomas, who has been re-elected captain for next season, kicked seven conversions out of eight. Coventry are banking on promising young players such as Mark Lakey (stand-off half) and the tries in Saracens for three tries in injury time. Coventry's chief try-scores were Buttimore (3) and Rossborough (2).

Steve Thomas, who has been re-elected captain for next season, kicked seven conversions out of eight. Coventry are banking on promising young players such as Mark Lakey (stand-off half) and Rossborough (2).

There was some village-cricket were eager to win for different scoring on the last day of the 15-a-reasons: Waterloo because they side rugby season on Saturday. Glancing down the results at breakfast you notice that Abertillery own season has not given them they wanted by in Saracens for three tries in

be a tremendous prospect to win the European title in Moscow next

BADMINTON MBE's set to meet

in final By Richard Eaton

By Richard Eaton

England's great strength in doubles gives them hopes of several sets of medals in the world badminton championships which start in Copenhagen today.

The most celebrated of the pairs is the defending world women's doubles partnership of Nora Perry and Jane Webster. Along with the European champions. Gillian Gilks and Gill Clark, they are seeded to reach the semi-finals, but both English pairs are likely to find the going tough against the Chinese, who are competing for the first time ever. Between them, their two pairs ever. Between them, their two pairs have accounted for the last two All-England women's doubles titles.

England's best chances lie in the mixed doubles in which the redoubtable Mrs Perry teams up with the Swede. Tomas Kinlstrom. with whom she won the All-England title. The seedings indicate that a clash of badminton's two MBEs should take place in the final, with Mrs Gilks partnered by Martin

Dew, the left-handed London University post-graduate, is likely to meet Kihlstrom twice, because he and Mike Tredgett, runners-up to Kihlstrom and Stefan Karlsson in the All-England championships, and seeded third, are scheduled to attempt a revenge over the Swedes in the semi-final round.

Meanwhile. China will have an excellent chance of dominating the singles titles in the way they did when they first entered the world team event, the Thomas Cup, last 7-8, 6-7. year. Much, however, may depend upon Luan Jin, the No 4 seed, repeating his surprise All-England success against the top seed. Morren Frost, the history student, playing in

his home city. Liem Swie King, the former All England champion from Indonesia. and Han Jian, of China, the No. 2 seed, are also in with a chance of the title, but it is almost impossible to see any other than one of the four

singles title. The Thomas Cup and Uber Cup are likely to be held every teo years with eight teams in the finals. Shuaib. Secretary of the Badminton Association of Malaysia said in Kuala Lumpar (AFP reports).

1978 and 1979 winner in the final of the British; Home Stores hard court tournament at Hampstead, on Saturday.

After his 4-6, 7-6, 7-5, win. Feaver, aged 31, the British No. 6 drove to Solihull to register his entry for the qualifying competition of the West Warwickshire £25,000 event. Torrential rain, however, washed out the first day's play at Solihull. Five matches had just gone out when the rain came and none of them had progressed beyond four Torrential rain, however, washed out the first day's play at Solihull. Five matches had just gone out when the rain came and none of them had progressed beyond four

them had progressed beyond four games.

Feaver, who had to save a match point in the tenth game of the final set, has been out of competition for two months after an operation on his right keg. In that time his world ranking has slumped well below the limit required to get into the Solihull main draw.

On Saturday's form it should not take him too long to improve it as he showed when he put in a strongish to win from 2-4 in the final set.

final set.

final set.

There was an even better comeback in the women's final when Amanda Brown beat Debbie Jarrett, the Wightman Cup player, 5-7, 6-3, 7-5 in two hours and three quarters after trailing 2-5 in the final set. Miss Brown, aged 17 is No 1 seed in the women's competition at seed in the women's competition at Solihull.

Swedes have high hopes

Dusseldorf (Reuter) - Sweder led by Mats Wilander, have emerged as the team to beat in the emerged as the team to beat in the \$\frac{\$450,000}{\$000}\$ World Team Cup. which begins here today after the withdrawal of Argentina and Czechoslovakia. Sweden are also represented by Anders Jarryd. Joakim Nystroem and Hans Simonsson. Simonsson.

The oppositin is strong. The United States squad comprises Gene and Sandy Mayer and Eliot Teltscher. France field Yannick Noah and Gilles Moreton.

Barras

in Penn

By John Wilcockson

'It was dangerous in the rain

the was cangerous in the rain because we could have crashed at any moment. Barras said after finishing second to Steve Joughin. It was Joughin's first win as a professional.

The first four finishes all

competed in last week's Sealink International, a race of 470 miles which proved ideal preparation. Barras had not won a race since last August before Saturday, when he displayed the form that has gained

him well over 100 victories in his 13

When he made his move out of the main bunch halfway through the 72-mile first stage, he had almost four minutes to make up on Bayton.

Banbury and Mick Morrison, who had broken clear on the first of the

Riding confidently throughout

Barras mopped up nine other men before joining the leaders 12 miles from the finish. The Yorkshire

sprint, when the main group was

more than seven minutes in arrears.

Yesterday morning, Barras and his Falcon Cycles team were able to

control the second stage on a wind-swept circuit in Shropshire, until the

winning move 26 miles from the finish.

Episode four of the 12-part series VIETNAM (Channel 4, 9,00pm) is not the sort of fare usually associated with Bank Holiday viewing, which comes as a welcome relief. LBJ Goes to War examines the reasons that led to President Johnson's escalation of his predecessor's firmited commitment policy to one of full-scale war. President Diem's assessination in 1963, followed three weeks later by President Kennedy's death, was the beginning of the end for South Vietnem. In the 18 months following the two deaths, there were six changes of government with the resultant instability taken advantage of by the communists of North Vietnam. Their more frequent raids were countered with more ground involvement by the military "advisers" of the United States. Then came the infamous Gulf of

Tonkin incident which precipitated

CHOICE the all-out offensive by the United States. The programme examines the roles played by Johnson's advisers at the time, notably McGeorge Bundy and George Ball, the latter the first senior official to resign over Johnson's Vietnam

Some of the tricks of the filmmaking trade are revealed in a brisk and entertaining documentary THE MAKING OF A LOCAL HERO (ITV, follows the crew from day one of filming in Houston with the director,

explaining their actions. What emerges is a portrait of a skilled team working in unison under the direction of a self-deprecating Scot ith a knack of getting the best out of everybody.

11.00pm) Local Hero was written and disappeared when the realities of directed by Bill Forsyth and opened to critical ecclaim earlier this year. to critical acclaim earlier this year.

Burt Lancaster plays the lead role as Happer, the head of a Houston-based oil company that wants to buy a bay in Scotland - trespective of the local's wishes. The documentary end, Derek Jacobi stars as Ruskin with Bridget McCann as his wife, fifting in Houston with the director.

old one again. Look, if you really want to know, I'll have to go into feminism, and sex stereotyping, and role-playing, and it'll take half an hour, and you won't write any of it down because you men inst want it all because you men just want it all

Jane came to the rescue. Just Jane and just lone. The sisters are shy about summers; too much self-identity destroys group consciousness. It has to do with women leaving home to assert themselves for peace. This group is about raising women's consciousness to make them aware they can stop war. We are 52 per cent of the nondation."

But I thought, I said, it was about preventing the basing of cruise missiles in this sweet corner of Berkshire.

Oh ves, we must never forget our main purpose. We have to believe cruise will still not come, and we certainly intend to stay here even if its does. The camp will still have been of enormous value in airing the issue so

voters of Newbury wish they mile perimeter fence, Greenham can still draw thousands.

"This may appear a very silly question", I ventured, twisting the toes of my wellingtons self-consciously in the Greenham Common mud. "But why are there no men in the peace camp?" Alan Hamilton writes.

Ioma threw up her bands in a gesture of exasperated despair. "Oh God", ahe moaned, rolling her eyes heavenwards, "not that old one again. Look, if you really want to know, I'll have to go into feminism, and sex

Having tried and failed with a hacksaw blade, the United States Air Force had to buildoze the main gate off its hinges to allow the early shift of civilian

workers inside the wire, "We locked them inside their own monster for a while". Bee said gleefully. "We are trying to show that a nuclear society can turn into a police society." Inside the gate, a vanload of the police society stamped its feet in boredom inside the vehicle, devoutly wishing to return to the police cauteen. They did not come too near the women at any stage of the prank.
A group of

A group of sightseeing Danish students turned up and were drawn into discussion round the camp fire where a bisckened teapot was singing with the aid of a packet of Sainsbury's firelighters.

"It is much more primitive than we imagined", one Danish girl said, slightly aghast at the scattered rubbish, the chemical The Greenham Common lavatories hidden in the bushes, peace women, like the Bomb, the washing hanging on trees will not go away however much and the bales of straw for

The Greenham Common would. For events like the women have become, inevitably, joining of hands round the nine- a menagerie. "People stop their cars, get themselves photo-graphed by the benders and Between times, a hard core of drive away again", Tricia about 30 women still maintain complained. But they suffer their vigil at the main gate, little direct abuse, even when sheltering from the elements in they go shopping in Newbury. their "benders" — tents of "But people do give you the

look, and will walk to the other side of the pavement", Sarah said. "In the shops, they will put the change down on the counter rather than put it in your hand. And there are only two pubs in Newbury that will let us in."

That is not strictly correct. We took Tricia in her muddy wellingtons and hitch-hiker's bedroll into the Swan Inn. an oak-beamed hostehy of welldressed clientele, where an eyelid or two was batted but where she was served without

whole, rather they folded their tents and slipped away. The postman still delivers them letters of support from all over the world, which they keep in an old refrigerator by the camp fire, but the district council long ago stopped collecting their rubbish and any visitor is liable to be asked to take a sack of garbage to the public tip.

Newbury District Council has so far refrained from enforcing the legal powers it has obtained to evict the women. An injunc-tion restraining 21 of them from camping on conscil land has merely meant that those involved have moved their "benders" a few yards to the west on a gravel patch by the roadside, which is owned by the Department of Transport.

The remainder have pitched their tents defiantly on Newbury Council land.

rithout friends. Next Saturday Berkshire County Council will debate a motion from Mr Alan Furley, a Labour councillor, which calls for the women's right to protest without harassment at the camp gates. Berkshire being a hung council, the outcome is far from certain, but the women fear the motion

Letter from Moscow

Russian-made 'bubbly' for the working man

"We owe it all to our very own Prince Golitsyn," the champagne factory manager said. We raised our glasses of clear, sparking Soviet champagne and drink to the memory of the Prince, who in the eighteenth century had had the foresight to lay the foundations of Russian viniculture on his landed estates in the Crimes.

Even through a slight champagne-induced haze, the rough-bewn and jovial factory manager did not look like a man who could claim kinship with one of Russia's oldest aristoratic families. Nor could he, as it turned out, since (like Stalin) he was the son of a poor family from Georgia. Just to be on the safe side we drank toasts to Stalin as well. On of the most striking

paradoxes of Soviet life is that champagne is the drink of the working man. Most Russian men have vodka in their veins, and they drink quantitles of watery beer in rather sad and sordid dive bars. But go into any restaurant in Moscow, or even in a provincial town, and you will find tables laden with shampans-koe, drunk by both men and women. Where they get the money from is a mystery. At £6 a bome in shops, and more in restaurants, Soviet cham-pagne is not cheap (the average monthly wage is about £150).

Yet vast quantities are produced, and consumed. There has been a deliberate government policy to make it a symbol of privilege available to the masses.

Shampanskoe is drunk at weddings birthdays on numerous public holidays. when friends come to visit, to mark arrivals and departures. or for no reason at all. It has a high alcolol content, and is really powerful when drunk with vodka (as it often is).

Out at the "Sixty years of the USSR champagne factory" the huge vats of champagne bubble quietly away before being bottled and labbeled on an assembly line where most of the employees are women. In the cool, tall rooms where the scientifically controlled machinery hums to itself there are no human beings at all, just computers channelling the right mix of wine basis, sugar and gas - the process known in Russia as shampanisatsiya.

containers produce 100 littes of vinamaterial an hour for filtering and bottling le emerges as dry, senti-dry, sweet or brut champagne which makes a satisfactory fountain when the (imported plastic cork pops out.

parellel with the speaking factory next door which produces the Soviet version of Pepsi-Cola and Fanta (the fizzy orange drink). Like the champagne factory, the toff drinks bottling plant is set in a raw industrial estate on the outskirts of Moscow, and wat completed in time to these the extra demand generated by the Moscow Olympic Games three years ago.

The Russians are keen to point out that their champagnes are not just sparkling wines, however. "Our cham pagnes are known all over the world as the very best," the factory manager said proudly. Even in France."

Some of the wine used to make Soviet champagne is imported from Argentina although the Russians deny this. They prefer to emphasize the use of good white wine from Moldavia, Georgia an the Caucasus, brought up to Moscow by the larry and

In the southern republics, some champagne is still diage by the traditional "bonie method," but the "reservoir" or val process is gradually taking over. The giant "Sint-eth Anniversary" factory is part of this process in produces 20 million bonies of very drinkable champagne a year, which makes it the largest champage factory in

France and West Germany have expressed an interest in buying the technology developed by the Russians for mass production of champagne.

At present Russia occupies third place behind them in the league of world champagie production, but the current five-year plan target of 300m bottles a year ought to put the Soviet Union comfortably in first place within the next two What Prince Golitsys

would have thought of it is quite another matter.

Richard Owen

Today is the Feast of Saint Athanasius who was born c296 in Alexandria. In 328 he became bishop of that city, and devoted his life to opposing the doctrine of Arianism. Despite calle and much suffering. Athanasius remained uncomproming in his attitude until ing in his attitude until his death in 373.

Countryside appeal

The Countryside Commission has asked motorists and motor nes gated mourses and moun-cyclists not to drive on the prehistoric Ridgeway path along the Oxfordshire and Witshire Downs on Sundays and Bank Holidays from now to the end of October. The path is classed legally as a road even though it is a track. The Commission appealed to those who must drive on it on those days to keep below 25 miles an hour.

TIMES NEWSPAPERS LIMITED, 1983, Printed and gublished by Times Newspapers Limited, P.O. Box 7, 200 Gray's Im Road, London, WC1X 8EZ. England. Telephone: 01-837 1224. Telest 364971. Monday May Z 1983. Registered at a newspaper at the Pool Office.

The last summer visitors are coming in. Spotted flycatchers are back: they sit hunched on a gate-post, dart into the air for a passing insect, and snap back onto their perch as if they were tied to it by clastic. They have a thin song, not often heard. In Wates and the Scottish Border country, pied flycatchers have returned to the woody hillsides. They too hawk for insects, but usually start and land on different perches; their song is a loud, bright warble. Curlews are loud, bright warble. Curriews are nesting on the grass-mooss; the male hovers and glides over the nesting-grounds, his ringing, trilling song audible from far away. Whimbrels, the smaller relatives of the curlew, are making their way up the coast to the Orkneys and the Shetlands.

On the lime trees, the young leaves hang on the black twigs like small green lanterns. The first elmsmall green unierts. The first embeaves are breaking out of their pink buds. Young oak-leaves are a pale olive, like the lacy catkins that surround them. The new sycamore leaves are often pink or copper-coloured, but the trees look bright green because of the heavy sprays of dangling flowers. On crabapple trees, the red buds open to reveal themselves as white blossoms.

Red Cross Week

Red Cross Week begins today. Displays showing how help is given to the needy are open to the public in all branches of the British Red Cross Society throughout the week. Donations may be made to street collectors, or sent to the Society's headquarters at 9 Grosvenor Crescent, London SW1X 7 EJ.

Bond winners

Winning numbers in the weekly traw for Premium Bond prizes are: £100,000: 23AN 615182 (the winner comes from Kent); £50,000: 23VF 865936 (Bristol); £25,000: 6ET 697134 (Fife).
